THE UNITED STATES GOVERNMENT

REPORT ON THE EIGHTH CENSUS OF CANADA, 1941

To His Excellency the Right Honourable the Earl of Athlone, K.G., P.C., G.C.B., G.C.M.G., G.C.V.O., D.S.O., A.D.C., Governor General and Commander-in-Chief of the Dominion of Canada.

MAY IT PLEASE YOUR EXCELLENCY:

I have the honour to lay before your Excellency the second volume of the Report of the Eighth Census of Canada taken as of date June 2, 1941. This volume classifies the population by local subdivisions according to sex, age, conjugal condition, racial origin, religion, birthplace, immigration, citizenship, language spoken, mother tongue, school attendance, years of schooling, age of women at first marriage, movement of population, etc.

I have the honour to be,
Your Excellency's most
obedient servant,

JAMES A. MACKINNON,
Minister of Trade and Commerce.

OTTAWA, November 22, 1943.

RAPPORT SUR LE HUITIÈME RECENSEMENT DU CANADA, 1941

A Son Excellence le Très Honorable Comte d'Athlone, K.G., C.P., G.C.B., G.C.M.G., G.C.V.O., D.S.O., A.D.C., Gouverneur Général et Commandant en chef du Dominion du Canada.

QU'IL PLAISE À VOTRE EXCELLENCE:

J'ai l'honneur de déposer devant votre Excellence le deuxième volume sur le Rapport du Huitième Recensement du Canada effectué le 2 juin 1941. Ce volume classifie la population par subdivisions locales selon le sexe, l'âge, l'état conjugal, l'origine raciale, la religion, le lieu de naissance, l'immigration, la citoyenneté, la langue parlée, la langue maternelle, la fréquentation scolaire, les années d'école, l'âge des femmes à leur premier mariage, le mouvement de la population, etc.

J'ai l'honneur d'être,
de Votre Excellence, le
très obéissant serviteur,

JAMES A. MACKINNON,
Ministre du Commerce.

OTTAWA, 22 novembre 1943.

PREFACE

Volume II of the Eighth Census of Canada sets forth the total population enumerated as of date June 2, 1941, down to the smallest geographical areas, but without cross-classification or analysis of any kind except by sex and by rural and urban. The data cover each of the main subjects on the population census schedule (sex, age, conjugal condition, racial origin, religion, birthplace, immigration, naturalization, citizenship, language spoken, school attendance, years of schooling, age of women at first marriage, and movement of population) except occupation, employment and earnings which will be dealt with in Volumes VI and VII. This volume includes, in addition, a number of historical tables which give population statistics back to 1871, the year of the first census after Confederation.

The history and purpose of the census, the legislation under which it is taken, and the methods of collecting, checking and compiling the data, are described in full detail in the Administrative Report on the taking of the census which will appear as Introduction to Volume I. Attention may be particularly directed to the section of the Introduction which outlines the general plan according to which the volumes of the census are being issued and explains the nature of the materials contained in the present volume and their place in the general scheme of publication.

The various tables of the present volume are grouped under seventeen general headings as follows: Population, summary, historical and density (tables 1-7), electoral districts (tables 8-9), local subdivisions (tables 10-11), rural and urban (tables 12-18), sex (tables 19-20), age (tables 21-24), conjugal condition (tables 25-28), racial origin (tables 29-34), religion (tables 35-40), birthplace (tables 41-45), immigration (tables 46-48), citizenship (tables 49-50), official language (tables 51-52), mother tongue (tables 53-55), years of schooling and school attendance (tables 56-59), age of women at first marriage (table 60), and movement of population (tables 61-62).

A brief introduction sets out various definitions and explanations and in appendices will be found copies of the questionnaires used in the enumeration, maps and descriptions of the census divisions used for presentation of results.

The organization for the taking of the census and the general planning of the census was carried on under the direction of A. J. Pelletier, F.S.S., Chief of the Census Branch. Since May, 1942, Mr. Pelletier was seconded to the Government of Jamaica and the materials for this volume were prepared under the direction of O. A. Lemieux, M. S.A., Ph.D., Acting Chief of the Census Branch, assisted by A. H. LeNeveu, M.A., Statistician in charge of the Population and Occupations Sections of the Census Branch.

Dominion Statistician.

PRÉFACE

Le Volume II du Huitième Recensement du Canada porte sur la population totale énumérée à la date du 2 juin 1941, répartie jusque dans ses petites divisions géographiques mais sans classification recoupée ou analyse d'aucune sorte, excepté par sexe et divisions rurales et urbaines. Les données couvrent chacun des principaux sujets prévus dans le plan du recensement de la population (sexe, âge, état conjugal, origine raciale, religion, lieu de naissance, immigration, naturalisation, citoyenneté, langue parlée, fréquentation scolaire, années d'école, âge des femmes à leur premier mariage, mouvement de la population) excepté les occupations, l'emploiement et les gains qui feront le sujet des volumes VI et VII. Le présent volume comprend, en outre, un nombre de tableaux historiques montrant les statistiques rétrospectives de la population jusqu'à 1871, année du premier recensement après la Confédération.

L'histoire et le but du recensement, la législation en vertu de laquelle il est institué, les méthodes de collection, de revision et de compilation des données sont décrites dans tous leurs détails dans le Rapport Administratif sur le recensement, paraissant comme introduction au Volume I. L'attention est attirée tout particulièrement sur la section de l'introduction esquissant le cadre général d'après lequel les volumes du recensement sont publiés et expliquant la nature des matières contenues dans le présent volume et leur place dans le plan général de publication.

Les différents tableaux du présent volume sont groupés sous dix-sept en-têtes généraux qui sont: Population, sommaire historique et densité (tableaux 1-7), districts électoraux (tableaux 8-9), subdivisions locales (tableaux 10-11), population rurale et urbaine (tableaux 12-18), sexe (tableaux 19-20), âge (tableaux 21-24), état conjugal (tableaux 25-28), origine raciale (tableaux 29-34), religion (tableaux 35-40), lieu de naissance (tableaux 41-45), immigration (tableaux 46-48), citoyenneté (tableaux 49-50), langue officielle (tableaux 51-52), langue maternelle (tableaux 53-55), années d'école et fréquentation scolaire (tableaux 56-59), âge des femmes à leur premier mariage (tableau 60) et mouvement de la population (tableaux 61-62).

Une brève introduction donne les différentes définitions et explications; dans les appendices paraissent le texte des questions employées dans l'énumération, les cartes et descriptions des divisions de recensement employées pour la présentation des résultats.

L'organisation du recensement et le plan général de son opération étaient sous la direction d'A. J. Pelletier, F.S.S., chef de la Branche du Recensement. Depuis mai 1942, M. Pelletier ayant été prêté au gouvernement de la Jamaïque, la matière de ce volume a été préparée sous la direction d'O. A. Lemieux, M.S.A., Ph.D., chef suppléant de la Branche du Recensement, assisté d'A. H. LeNeveu, M.A., statisticien en charge de la Section de la Population et des Occupations de la Branche du Recensement.

S. A. CUDMORE,
Statisticien du Dominion.

INTRODUCTION

This volume of the Eighth Census of Canada presents statistics of the population enumerated as of date June 2, 1941, by local subdivisions but without cross-classification or analysis of any kind except by sex and for rural and urban areas. It covers all the main subjects of the population schedule except occupation, employment and earnings. The details of the organization and compilation of the census will be found in the Administrative Report on the taking of the census which appears as Introduction to Volume I.

Legislation.—The Statistics Act, 1918, c. 43, s. 19.

The census was taken under the provisions of this Act, and ascertained "with the utmost possible accuracy, for the various territorial divisions of Canada, their population and the classification thereof, as regards name, age, sex, conjugal condition, relation to head of household, nationality, racial origin, language, religion, education, employment, unemployment, occupation, wage-earnings,.....and such other matters as were prescribed by the Governor in Council."

Organization.—The Statistics Act provides for the division of the provinces into census districts corresponding as nearly as possible to the federal electoral districts. The census districts were subdivided into census subdistricts or enumeration areas. The country was thus divided into 16,352 enumeration areas distributed by provinces as follows: Prince Edward Island, 165; Nova Scotia, 921; New Brunswick, 610; Quebec, 4,218; Ontario, 5,042; Manitoba, 995; Saskatchewan, 1,892; Alberta, 1,356; British Columbia, 1,097; Yukon, 21 and the Northwest Territories 35. Enumerators were then appointed to carry on the enumeration of the population in these subdistricts. Complete details of the organization of the census will be found in Volume I.

Date for Recording the Population.—The date selected for recording the population in the Census of 1941 was Monday, the second day of June. The decisive hour of reckoning was 12 o'clock or midnight, standard time, on the night of June 1 to June 2. Every child born before that hour and every person dying after it was counted in the population.

The "De Jure" Method of Taking the Census.—The Statistics Act provides that the census be taken by what is known as the *de jure* method. Briefly, this means that all persons are to be enumerated at their permanent place of residence. This method, as will be shown presently, complicates considerably the taking of a census in wartime.

The following rules were given to the enumerators to help them to determine who was to be included in the census and where each person was to be enumerated:

(*a*) *Persons Away from Home on Business or Visiting.*—If a travelling salesman, for instance, lives in Winnipeg, but happens to be absent on a trip at the census date, he is counted in the population of the district where he lives in Winnipeg.

(*b*) *Students at College.*—A person attending a school or college away from home is to be recorded in the population of the district in which his home is situated, and not in the population of the district where the school is located.

INTRODUCTION

Ce volume du Huitième Recensement du Canada présente les statistiques de la population énumérée telle qu'à la date du 2 juin 1941, par divisions locales mais sans classifications recoupées ou analyse d'aucune sorte, excepté par sexe et divisions rurales et urbaines. Il couvre tous les principaux objets du questionnaire de la population, excepté les occupations, l'emploiement et les gains. Les détails de l'organisation et de la compilation du recensement paraissent dans le Rapport Administratif du recensement donné comme introduction au Volume I.

Législation.—La loi de la statistique, 1918, c. 43, art. 19.

Le recensement a été pris en vertu de cette loi et vérifié avec la plus grande exactitude possible pour les différentes divisions territoriales du Canada, leur population et classification, en ce qui regarde le nom, l'âge, le sexe, l'état conjugal, la relation avec le chef du ménage, la nationalité, l'origine raciale, la langue, la religion, l'instruction, l'emploiement, le chômage, l'occupation, les gains. . . . et toute autre information prescrite par le Gouverneur en Conseil.

L'organisation.—La loi de la statistique pourvoit à la division des provinces en districts de recensement correspondant aussi étroitement que possible aux districts électoraux fédéraux. Les districts de recensement ont été divisés en sous-districts de recensement ou en régions d'énumération. Le pays a été ainsi divisé en 16,352 régions d'énumération réparties par province comme suit: Ile du Prince-Edouard, 165; Nouvelle-Ecosse, 921; Nouveau-Brunswick, 610; Québec, 4,218; Ontario, 5,042; Manitoba, 995; Saskatchewan, 1,892; Alberta, 1,356; Colombie Britannique, 1,097; Yukon, 21; et Territoires du Nord-Ouest, 35. Les énumérateurs ont ensuite été nommés pour faire l'énumération de la population dans les sous-districts. Les détails complets de l'organisation du recensement paraissent dans le Volume I.

Date de l'énumération de la population.—La date choisie pour le relevé de la population par le recensement de 1941 est le lundi 2 juin. L'heure de délimitations est 12 p.m. ou minuit, heure normale, la nuit du 1er juin au 2 juin. Tout enfant né avant cette heure ou toute personne morte après cette heure ont été comptés dans la population.

La méthode "de jure" pour prendre le recensement.—La loi de la statistique pourvoit que le recensement soit pris d'après la méthode appelée *de jure*. Bref, cela veut dire que toutes les personnes doivent être énumérées à l'endroit de leur domicile permanent. Cette méthode, comme on va le voir, complique considérablement le travail d'un recensement en temps de guerre.

Les règles suivantes ont été données aux énumérateurs pour les aider à déterminer qui devait être inclus dans le recensement et où chaque personne devait être énumérée.

(*a*) *Personnes éloignées de leur domicile par affaires ou en visite.*—Si un voyageur de commerce, par exemple, habite Winnipeg mais se trouve absent en voyage à la date du recensement, il est compté dans la population du district où est son domicile à Winnipeg.

(*b*) *Etudiants au collège.*—Une personne fréquentant une école ou un collège, loin de chez elle, doit être inscrite dans la population du district de son domicile et non dans la population du district où se trouve l'école.

(*c*) *Persons in Hospitals.*—A casual patient in an ordinary hospital does not expect to remain there permanently and therefore does not acquire a domicile at the hospital. Such a person is counted in the population at his or her permanent home and not at the hospital. The rule is that only persons having *their permanent home in the hospital* are to be counted there.

(*d*) *Persons Abroad.*—Persons temporarily absent on business or visiting outside of Canada are to be included in the population of the district in which their permanent home is situated in Canada.

(*e*) *Servants.*—Household servants, labourers, or employees who live and sleep on the premises of the household are to be counted in the population of that household.

(*f*) *Boarders and Lodgers.*—Boarders and lodgers are to be enumerated with the population of the dwelling where they sleep.

(*g*) *Sailors at Sea.*—A sailor away from his home at sea is to be enumerated as belonging to the population at his permanent home ashore.

(*h*) *Lumbermen.*—Lumbermen away at work in the forest are to be enumerated at their permanent home.

(*i*) *Nurse in Training.*—A nurse in training shall be counted in the population where she is in training.

(*j*) *Soldiers, Sailors, Aviators and Military Nurses in the Active Army or in the Reserve,* whether overseas or in training in a Canadian camp, shall be enumerated at their permanent homes. The enumerator will note, however, that special provision is made for an entry in column five of the schedule for these persons if they are at camp at the time of the census.

(*k*) *Salvation Army, Knights of Columbus, Red Cross and Y.M.C.A.* workers in army huts either overseas or in Canadian military camps will be enumerated at their permanent homes, in the same manner as soldiers and military nurses.

(*l*) *Persons Who Have Come to Canada from Another Country* in 1939, 1940 or 1941 as a result of war conditions, without the intention of making a permanent stay in Canada, *shall be enumerated at the place where they reside at the time of the census.* This will include persons who are in Canada as refugees and evacuees for the duration of the war. The enumerator will note that for such persons, provision is made for the entering of the letter "X" in column 22, after the year of immigration. Persons in Canada on official missions are not to be enumerated.

(*m*) *Absent Persons.*—When taking the census of a household the enumerator shall specifically ask if any member of the household is temporarily absent. If there is a member absent the enumerator is to enter such a member's name and other census information to be supplied by other members of the household and by relatives and friends of the absent person. (See Instructions (*o*) and (*p*).)

(*n*) *Domestic Servants, etc.*—Because the abode of domestic servants has been a source of misunderstanding in the past, it is hereby emphasized that they are to be enumerated at the place where they sleep. If they sleep at their employer's home they are to be enumerated in their employer's household; but if they leave every night after their day's work they are to be enumerated where they sleep.

The same rule applies to farm labourers and employees of all kinds. The general rule is that such persons are to be enumerated where they sleep.

(*c*) *Personnes dans les hôpitaux.*—Un patient temporairement dans un hôpital ordinaire ne s'attend pas à y demeurer en permanence et pour cette raison n'acquiert pas domicile à l'hôpital. Une telle personne est comptée dans la population de l'endroit de son domicile et non pas de l'hôpital. La règle est que seules les personnes *ayant leur domicile permanent dans l'hôpital* doivent être comptées à cet endroit.

(*d*) *Personnes à l'étranger.*—Les personnes temporairement absentes par affaires ou en visite en dehors du Canada doivent être comprises dans la population du district où elles ont leur domicile permanent au Canada.

(*e*) *Serviteurs.*—Les domestiques et les ouvriers ou employés qui vivent et couchent dans le logement d'un ménage doivent être comptés dans la population de ce ménage.

(*f*) *Pensionnaires et logeurs.*—Les pensionnaires et logeurs doivent être énumérés avec la population de la maison où ils couchent.

(*g*) *Marins en mer.*—Un marin absent de son domicile et en mer doit être énuméré comme appartenant à la population de son domicile permanent à terre.

(*h*) *Bûcherons.*—Les bûcherons au travail dans les forêts doivent être énumérés à leur domicile permanent.

(*i*) *Infirmières étudiantes.*—Les infirmières étudiantes doivent être énumérées parmi la population de l'endroit où elles étudient.

(*j*) *Soldats, marins, aviateurs et infirmières militaires dans l'Armée active ou dans la Réserve.*—Qu'ils soient en service outre-mer ou dans un camp au Canada, ils sont énumérés à leur domicile permanent. L'énumérateur remarquera toutefois qu'il est spécialement pourvu à une entrée dans la colonne cinq du questionnaire pour ces personnes si elles sont à un camp au moment du recensement.

(*k*) *Armée du Salut, Chevaliers de Colomb, Croix Rouge et Y.M.C.A.*—Les travailleurs de ces organisations dans les huttes de l'armée et autres camps outre-mer sont énumérés à leur domicile permanent de la même manière que les soldats et les infirmières militaires.

(*l*) *Les personnes qui sont arrivées au Canada de l'étranger* en 1939, 1940 et 1941 à cause de la guerre, et qui n'ont pas l'intention d'élire domicile permanent au pays, sont énumérées à l'endroit qu'elles habitent au moment du recensement. Elles comprennent les personnes qui sont au Canada comme réfugiés et évacués pour la durée de la guerre. L'énumérateur note que pour ces personnes il doit inscrire la lettre "X" dans la colonne 22, après l'année d'immigration. Les personnes qui sont en mission officielle au Canada ne sont pas dénombrées.

(*m*) *Personnes absentes.*—En faisant l'énumération d'un ménage, l'énumérateur demandera spécifiquement si un membre quelconque de ce ménage est temporairement absent. Si un membre du ménage est absent, l'énumérateur inscrira son nom et les autres détails de recensement que lui fourniront les autres membres du ménage, les parents et les amis de la personne absente.

(*n*) *Domestiques, etc.*—Comme la question du domicile des domestiques a été une source de malentendus dans le passé, répétons que les domestiques devront être énumérés à l'endroit où ils couchent. S'ils couchent dans la maison de la personne qui les emploie, ils seront énumérés avec le ménage de cette personne, mais s'ils quittent cette maison le soir après leur journée de travail, ils seront énumérés à l'endroit où ils couchent.

La même règle s'applique aux aides de ferme et aux employés de toutes sortes. La règle générale veut que ces personnes soient énumérées là où elles couchent.

(*o*) *Place of Residence Doubtful.*—Where it is not known whether an absent person will return or not the enumerator shall enter such person's name, together with all other information required by Schedule No. 1 and write after the name in Column 4, "Ab" for absent, and also enter such person's present P.O. address in Column 6. The entry in Column 4 is to appear thus: "Smith, John (ab)."

(*p*) *Absent Twelve Months.*—If a person other than those referred to in Instructions (*j*) and (*k*) has been absent from a household for twelve months, and it is not known whether he or she will return, the presumption shall be that he or she is domiciled elsewhere and he or she shall, therefore, not be enumerated with the said household.

(*q*) *Persons Not to be Enumerated with the Household.*—The following are not to be enumerated with the households in which they are found:—

(i) *Visitors or Transients.*—Persons, *staying temporarily* at hotels, boarding-houses, lodging rooms, with relatives or friends, or other places are not to be enumerated at such places if they have some other usual or permanent home (unless their permanent home is closed). If the permanent home is closed they will be enumerated in the regular way and the enumerator will fill in and return an "Absentee Household Card."

(ii) *Table Boarders.*—Persons who take their meals with a household are not to be enumerated with that household unless they also sleep in the household.

(iii) *Servants Sleeping Out.*—Servants, apprentices or other persons are not to be enumerated with the household in which they work unless they also sleep in the said household.

(iv) *Students.*—Children or students living or boarding with a household in order to attend a school or college, but whose home is elsewhere are not to be enumerated with such a household.

(v) *Persons in the Diplomatic Service of Other Countries, or on Official Missions* shall not be enumerated unless they happen to be Canadian citizens.

(*r*) *Inmates of Institutions other than Medical Hospitals.*—If there is in an enumerator's area, a prison, reformatory, jail, penitentiary, almshouse, asylum, or hospital for the insane, home for orphans, home for the blind, a home for the deaf and dumb, a home for incurables, an institution for the feeble-minded, a soldiers' home, a home for the aged or any similar institution, in which persons usually remain for long periods of time, inmates of such institutions should be enumerated by the enumerator appointed for the subdistrict unless the institution is made a separate enumeration area and its census otherwise provided for.

(*s*) *No Permanent Home.*—Persons having no permanent home are to be enumerated where found.

(*t*) *Construction Camps.*—Persons working in construction camps, relief camps, mining camps, lumber camps, or places of a similar nature, who have no permanent place of abode, are to be enumerated where found. This does not apply, however, to persons working at such camps who have a permanent home elsewhere; they are to be enumerated at their home and not at their camp.

(*u*) *Prisoners in Jails.*—It should be carefully noted that prisoners in jails are to be enumerated at the jail in which they are confined, and the name of the home address of such persons is to be entered in Column 6.

(*o*) *Lieu de domicile douteux.*—Lorsqu'on ignore si la personne absente reviendra ou non, l'énumérateur inscrira le nom de cette personne ainsi que tous les renseignements exigés sur le questionnaire n° 1, et écrira, après le nom, dans la colonne 4, l'abréviation "Ab" pour absent, et inscrira l'adresse postale actuelle de la personne dans la colonne 6. L'entrée dans la colonne 4 sera comme suit: "Smith, John (ab)".

(*p*) *Absent depuis douze mois.*—Si une personne autre que celles dont il est question aux articles (*j*) et (*k*) est absente de la maison depuis douze mois et qu'on ignore si elle reviendra, il sera présumé qu'elle est domiciliée ailleurs; en conséquence, elle ne sera pas énumérée avec les personnes qui habitent ladite maison.

(*q*) *Personnes qui ne doivent pas être énumérées avec le ménage.*—Les personnes suivantes ne devront pas être énumérées avec les ménages dans lesquels elles se trouvent:—

(i) *Visiteurs ou personnes de passage.*—Les personnes logeant temporairement dans les hôtels, les maisons de pension, chez leurs parents ou leurs amis ou dans d'autres endroits, ne seront pas énumérées dans ces endroits si elles ont un domicile ordinaire ou permanent ailleurs, à moins que leur domicile permanent soit fermé. Si le domicile permanent est fermé, elles seront énumérées selon la méthode régulière et l'énumérateur remplira et retournera une "carte de ménage absent".

(ii) *Pensionnaires (repas seulement).*—Les personnes qui prennent leurs repas dans un ménage ne seront pas énumérées avec celui-ci à moins qu'elles n'y couchent aussi.

(iii) *Serviteurs couchant en dehors.*—Les serviteurs, apprentis et autres personnes ne seront pas énumérés avec le ménage qui les emploie à moins qu'ils n'y couchent.

(iv) *Étudiants.*—Les enfants ou étudiants habitant ou pensionnant avec un ménage pour suivre les cours d'une école ou d'un collège, mais dont le domicile est ailleurs, ne seront pas énumérés avec ce ménage.

(v) *Les personnes faisant partie du service diplomatique d'un pays étranger ou en mission officielle* ne seront pas énumérées à moins d'être de citoyenneté canadienne.

(*r*) *Pensionnaires des institutions autres que les hôpitaux médicaux.*—Si, dans le district d'un énumérateur, il y a une prison, une maison de réforme, une géole, un pénitencier, un refuge, un asile ou hôpital pour aliénés, un orphelinat, un refuge pour aveugles, un refuge pour sourds-muets, un refuge pour incurables, une institution pour les pauvres d'esprit, un refuge pour les soldats, un hospice pour vieillards ou toute autre institution semblable où les personnes séjournent ordinairement pendant de longues périodes, les pensionnaires de ces institutions seront énumérés par l'énumérateur du sous-district, à moins que l'institution soit déclarée arrondissement séparé dont l'énumération est prévue par des instructions spéciales.

(*s*) *Aucun domicile permanent.*—Les personnes n'ayant pas de domicile permanent seront énumérées là où elles se trouveront.

(*t*) *Chantiers de construction.*—Les personnes employées dans des chantiers de construction, camps de secours, camps miniers, chantiers forestiers ou autres endroits de même nature et qui n'ont pas de domicile permanent seront énumérées là où elles se trouveront. Ceci ne s'applique pas toutefois aux personnes employées dans ces camps qui ont un domicile permanent ailleurs, lesquelles seront énumérées à ce domicile et non au camp où elles travaillent.

(*u*) *Détenus dans les prisons.*—A noter spécialement que les détenus doivent être énumérés dans la prison où ils se trouvent et leur domicile permanent inscrit dans la colonne 6.

Enumeration of Persons in the Armed Forces.—In spite of the special instructions previously quoted, special attention had to be given to the enumeration of the members of the Armed Forces both in Canada and elsewhere. A considerable number of members of the Armed Forces were living in rooming or boarding houses prior to enlistment. In joining the Forces they broke up their connection with the households to which they belonged, so that the heads of these particular households would not feel that it was their duty to mention them to the census enumerators. Furthermore, it was feared that a certain number of enumerators might neglect to inquire about members of the various families who had joined the Forces. For these reasons and to assure as complete an enumeration as possible, it was deemed advisable to take a special Census of the Armed Forces. The names of the persons included in this special census were then matched with the names included in the Population Census, and those found to have been omitted from the census were added at their usual place of residence. Complete details of the organization and compilation of this special census will be found in the Administrative Report on the taking of the census in the Introduction to Volume I.

Enumération des personnes dans les forces armées.—En dépit des instructions précédemment données, une attention spéciale devait être accordée aux membres des forces armées, au Canada et ailleurs. Un bon nombre de membres des forces armées vivaient en chambre ou dans une maison de pension avant leur enrôlement. En s'enrôlant ils brisèrent les liens qu'ils avaient avec la maison où ils demeuraient, de sorte que les chefs de ces ménages n'ont pas cru de leur devoir de les mentionner aux énumérateurs de recensement. De plus, on a craint que certains énumérateurs aient négligé de s'enquérir au sujet des membres des diverses familles qui s'étaient enrôlés. Pour ces raisons et afin d'assurer une énumération aussi complète que possible, un recensement spécial des forces armées a été jugé désirable. Les noms des personnes incluses dans ce recensement spécial ont ensuite été comparés aux noms inclus dans le recensement de la population, et ceux qu'on a constaté avoir été omis du recensement ont été ajoutés à leur lieu ordinaire de résidence. Des données complètes sur l'organisation et la compilation de ce recensement spécial se trouvent dans le Rapport Administratif du recensement à l'introduction du Volume I.

Absent Persons, Closed Dwellings and Absentee Households.—When permanent boarders, lodgers, etc., were absent at the time of the visit of the enumerator and there was no person in the household capable of giving the necessary information regarding them, he then left individual forms (See Appendix A) to be filled in within a stated limit of time and which he would collect at a later date. After the individual forms were collected, the enumerator entered the information on the population schedule where he previously had left a blank line for the purpose, thus tying these persons to the households to which they belonged.

Personnes absentes, logements fermés et ménages absents.—Lorsque des pensionnaires, des logeurs, etc., permanents, étaient absents lors de la visite de l'énumérateur et lorsque personne dans la maison ne pouvait donner les renseignements nécessaires à leur sujet, il laissait des formules individuelles (voir appendice A) à remplir dans un laps de temps limité et qu'il recueillerait à une date subséquente. Après que les formules individuelles avaient été ramassées, l'énumérateur inscrivait l'information sur les formules de recensement de la population où il avait laissé un espace en blanc à cet effet, attribuant ainsi ces personnes aux ménages auxquels ils appartenaient.

Closed Dwellings.—As already stated, the *de jure* method of taking the census demands that all persons be enumerated at their permanent place of residence. When an enumerator found a dwelling where all the members of the household were absent, he inquired from neighbours, janitors, or other persons who might know whether the occupants were merely out for the day or whether they were temporarily residing somewhere else. In the first instance, he would simply leave a blank space on his questionnaire and would return at a later date for the enumeration. If the occupants were in temporary residence elsewhere, then he filled in a special card giving the name and address of the head of this household and other particulars, (See Appendix A) which he mailed immediately to the Dominion Bureau of Statistics, after marking on his schedule that such a card had been sent. The enumerator then left a number of blank lines on his schedule and proceeded with the enumeration of his subdistrict.

Logements fermés.—Tel que déjà déclaré, la méthode *de jure* de faire le recensement veut que toutes les personnes soient énumérées à leur lieu de résidence permanent. Lorsqu'un énumérateur trouvait un logement où tous les occupants étaient absents, il s'informait auprès des voisins, concierges, ou autres personnes pour savoir si les occupants étaient absents seulement pour la journée ou s'ils demeuraient temporairement ailleurs. Dans le premier cas, il laissait tout simplement un blanc sur son questionnaire et retournait plus tard pour le dénombrement. Si les occupants demeuraient temporairement ailleurs, il remplissait alors une carte spéciale donnant le nom et l'adresse du chef de ménage et autres détails, (voir appendice A) qu'il envoyait immédiatement au Bureau Fédéral de la Statistique, après avoir indiqué sur son questionnaire qu'une telle carte avait été envoyée. L'énumérateur laissait ensuite quelques lignes en blanc sur son questionnaire et procédait à l'énumération de son sous-district.

Absentee Households.—When an enumerator found a household in temporary residence in his subdistrict and was informed that this household had closed its permanent dwelling for the time being, he enumerated it just as though its temporary residence had been its permanent residence, but in addition, he filled in a special card giving the name and address of the head of the household and other particulars, (See Appendix A) which he mailed immediately to the Dominion Bureau of Statistics after marking on his schedule that such a card had been sent for this household.

Ménages absents.—Lorsqu'un énumérateur rencontrait un ménage domicilié temporairement dans son sous-district et qu'il apprenait que ce ménage avait fermé momentanément son logement ordinaire, il l'énumérait comme si son domicile temporaire était son domicile permanent, mais en plus il remplissait une carte spéciale donnant le nom et l'adresse du chef de ménage et autres détails (voir appendice A) qu'il envoyait immédiatement au Bureau Fédéral de la Statistique, après avoir indiqué sur son questionnaire qu'une telle carte avait été envoyée pour ce ménage.

Matching Closed Dwelling and Absentee Household Cards.—It appears from the above that for all households which were not at their permanent place of residence at the time of the

Confrontation des cartes de logements fermés et de ménages absents.—Il appert par ce qui précède que pour tous les ménages qui n'étaient pas à leur domicile permanent lors du recensement, deux

census, two separate cards were sent to the Dominion Bureau of Statistics from two enumerators. These cards were then matched and persons were thus assigned to their permanent place of residence. Where no absentee household card was received to match a specific closed dwelling card, it was necessary to write to the occupier of the temporarily closed dwelling for the necessary particulars to complete the census.

Census Schedules.—The schedules from which the contents of this volume were compiled were four in number: (1) The population schedule which contained 39 questions covering the name, the address, the sex, the age, the conjugal condition, the birthplace, the number of years of residence in the province and in the municipality, the nationality, the racial origin, the language spoken, the education, the religion and the occupation of every person. In addition, a number of questions dealt with the age at first marriage of every married woman and the number of children born, and another series dealt with immigration and naturalization of persons born outside of Canada and of returning Canadians. Still another group of questions dealt with a description of the home. Finally there was a number of inquiries relating to occupation, employment and earnings. (2) The individual schedule which contained the same information as the preceding one but which was left by the enumerator to be filled in by persons not at home when the enumerator called and for whom the head of the household was unable to supply the necessary information. This schedule was collected at a later date by the enumerator and the information was added to the proper household line on the population schedule. (3) and (4) The closed dwelling and absentee household cards, the use of which was described in a preceding paragraph. These schedules may be seen in Appendix A to this volume.

Method of Publication.

Bulletins.—Just as soon as the population schedules are completed by the enumerators and checked by the commissioners, they are forwarded to the Dominion Bureau of Statistics, for further editing and coding. The compilation is then started and the results are first released as preliminary bulletins and later on in final bulletins (see Volume I for the list of bulletins published from the 1941 Census).

Volumes.—When the compilations are completed and finally checked, the volumes are printed. The Administrative Report outlines the general plan according to which the volumes of the census are being issued and explains the nature of the materials contained in each. The plan in brief is as follows: Volume I, in addition to the above-mentioned Administrative Report, consists of a series of descriptive chapters summarizing the data of each of the subjects included in the whole census. With its appendices, Volume I provides a résumé of the more important census results and of the technique adopted by the Dominion Bureau of Statistics in collecting and compiling the census data.

In Volume II the data for each subject are given, as already explained, down to the smallest possible geographical areas, being limited to straight totals without cross-classification except by sex and by rural and urban. The process of cross-classification and analysis is begun in Volume III with age as a basis. The process is continued in Volume IV with birthplace and racial origin cross-classified with other subjects on the population schedule. In addition, persons of less than 10 years' residence in a province at the census date are also cross-classified with other subjects on the schedule. In view of the extent of the cross-

cartes séparées ont été envoyées au Bureau Fédéral de la Statistique par deux énumérateurs. Ces cartes ont ensuite été confrontées et les personnes ont été ainsi attribuées à leur domicile permanent. Lorsqu'aucune carte de ménage absent n'était reçue pour correspondre à une carte de logement fermé en particulier, il était nécessaire d'écrire à l'occupant du logement fermé afin d'obtenir les détails nécessaires pour compléter le recensement.

Questionnaires de recensement.—Les questionnaires desquels le contenu de ce volume est tiré sont au nombre de quatre: (1) Le questionnaire sur la population contenant 39 questions sur le nom, l'adresse, le sexe, l'âge, l'état conjugal, le lieu de naissance, le nombre d'années de résidence dans la province et la municipalité, la nationalité, l'origine raciale, la langue parlée, l'instruction, la religion et l'occupation de chaque personne. En plus, un certain nombre de questions avaient trait à l'âge au premier mariage de chaque femme mariée et le nombre d'enfants nés; une autre série avait trait à l'immigration et la naturalisation des personnes nées en dehors du Canada et des Canadiens revenus au pays. Une autre série de questions avaient trait à la description du logement. Enfin il y avait un certain nombre de questions sur l'occupation, l'emploiement et les gains. (2) Le questionnaire individuel contenait la même information que le précédent, mais il était laissé par l'énumérateur pour être rempli par les personnes qui étaient absentes lorsque l'énumérateur s'était présenté chez elles et pour lesquelles le chef du ménage n'avait pas pu fournir l'information nécessaire: ce questionnaire a été recueilli plus tard par l'énumérateur et l'information a été ajoutée à la ligne appropriée de ménage sur le questionnaire de la population. (3) et (4) Les cartes pour les logements fermés et les ménages absents, dont l'usage a été décrit au précédent paragraphe. Ces questionnaires sont reproduits à l'appendice A de ce volume.

Méthode de publication.

Bulletins.—Aussitôt que les questionnaires sur la population étaient remplis par les énumérateurs et revisés par les commissaires, ils étaient envoyés au Bureau Fédéral de la Statistique pour plus ample vérification et codification. La compilation était alors commencée et les résultats d'abord publiés comme bulletins préliminaires et ensuite comme bulletins définitifs (voir Volume 1 pour la liste des bulletins publiés pour le Recensement de 1941).

Volumes.—Lorsque les compilations sont terminées et définitivement revisées, les volumes sont alors imprimés. Le Rapport Administratif donne une esquisse du plan général d'après lequel les volumes du recensement sont publiés et explique le contenu de chacun. En résumé, le plan est le suivant: Le Volume 1, en plus du Rapport Administratif susmentionné, comprend une série de chapitres descriptifs résumant les données de chacun des sujets compris dans le recensement en général. Avec ses appendices, le Volume 1 fournit un résumé des résultats les plus importants du recensement et de la technique suivie par le Bureau Fédéral de la Statistique pour colliger et compiler les données de recensement.

Dans le Volume II les données sont fournies pour chaque sujet, tel que déjà expliqué, jusqu'à la plus petite région géographique possible, et sont limitées aux totaux purs et simples sans classification recoupée excepté par sexe et par rural et urbain. La classification recoupée et l'analyse commencent dans le Volume III et sont basées sur l'âge. Le travail est continué dans le Volume IV qui donne des classifications recoupées par lieu de naissance et origine raciale avec d'autres aspects sur le questionnaire de la population. En plus, les personnes domiciliées moins de dix ans au lieu de résidence lors du recensement sont recoupées avec d'autres sujets du ques-

classifications, the data are shown only for the larger geographical areas in Volumes III and IV. Volume V presents an analysis of the census data relating to households and families. Volume VI deals with earnings and employment among wage-earners, while Volume VII covers the classification of the gainfully occupied by occupations and industries. The remaining volumes will contain the results of the Census of Agriculture, the Census of Housing and the Census of Merchandising and Service Establishments, all of which are taken concurrently with the Census of Population. Final volumes are to be devoted to a series of monographs or special studies on census subjects.

Transfers of Population between the Province of Quebec and the Northwest Territories.—In compiling the Census of 1941, it was discovered that in the Census of 1921, the population of Port Burwell (a population of 155 composed of 75 males and 80 females) had been credited to the province of Quebec when in reality it belonged to the Northwest Territories. Similarly in the Census of 1931, the population of Port Burwell, which was 112 (55 males and 57 females), was credited to the province of Quebec instead of the Northwest Territories. In addition, in 1931 the population of Port Harrison which was 327 (made up of 152 males and 175 females) and of Povungnituc, which was 192 (made up of 105 males and 87 females) had been credited to the Northwest Territories instead of the province of Quebec. These corrections were made in all tables which show comparative figures for 1921 and 1931. The results mean a net decrease of 155 in the population of the province of Quebec for 1921 and a net increase of 407 in 1931.

Counties in the Province of Quebec.—In the Census of 1931 as well as in other previous censuses the statistics published did not coincide in every case with the municipal counties. In 1941, an attempt was made to publish statistics which would correspond, in so far as possible, with municipal counties. For purposes of comparison with census data of earlier years, however, the boundaries of certain counties have not been made to conform with recent changes in the municipal counties. Details of the municipalities so affected will be found in Appendix B to this volume.

County of Lennox and Addington in Ontario.—In all census publications prior to 1941, the county of Lennox and Addington had been divided into two parts, one called Lennox and the other Addington. As Lennox and Addington constitutes only one county, these two parts have been united in the publications of the 1941 Census.

District of Patricia.—In previous censuses the statistics for the District of Patricia were published separately, as it then formed a separate territorial district. By an Act of the Ontario Legislature (Revised Statutes of Ontario, 1937, Chap. 5, Sec. 1) this district was annexed to the Territorial District of Kenora. Consequently, in the publications of the 1941 Census, statistics for this District have been included with the statistics for the District of Kenora.

Rural and Urban Population.—For census purposes the rural population is all the population living outside of the boundaries of incorporated cities, towns or villages. This population may reside in organized rural municipalities, townships or parishes or it may reside in areas which are unorganized. Descriptions of the rural areas in each province will be found in Appendix B to this volume.

tionnaire. Etant donné l'ampleur des classifications recoupées, les données ne sont fournies que pour les principales régions géographiques dans les volumes III et IV. Le Volume V présente une analyse des données du recensement sur les ménages et les familles. Le Volume VI traite des gains et de l'emploiement des employés à gages, tandis que le Volume VII donne la classification des employés rémunérés, par occupation et industrie. Les autres volumes contiendront les résultats du recensement de l'agriculture, du logement, des établissements de commerce et de service fait en même temps que le recensement de la population. Les derniers volumes seront consacrés à une série de monographies ou études spéciales sur des sujets du recensement.

Transfert de population entre la province de Québec et les Territoires du Nord-Ouest.—En compilant le recensement de 1941, on a découvert que lors du recensement de 1921 la population de Port Burwell (de 155 habitants—75 hommes et 80 femmes) avait été attribuée à la province de Québec quand en réalité elle appartenait aux Territoires du Nord-Ouest. De même, lors du recensement de 1931, la population de Port Burwell qui était de 112 habitants (55 hommes et 57 femmes), a été attribuée à la province de Québec plutôt qu'aux Territoires du Nord-Ouest. En plus, en 1931 la population de Port Harrison, qui était de 327 habitants (152 hommes et 175 femmes), et celle de Povungnituc, qui était de 192 habitants (105 hommes et 87 femmes), avait été attribuée aux Territoires du Nord-Ouest plutôt qu'à la province de Québec. Ces corrections ont été effectuées sur tous les tableaux qui montrent des chiffres comparatifs pour 1921 et 1931. Le résultat est une diminution nette de 155 de la population de la province de Québec pour 1921 et une augmentation nette de 407 pour 1931.

Comtés de la province de Québec.—Lors du recensement de 1931 et des précédents, les statistiques publiées ne coïncidaient pas dans chaque cas avec les comtés municipaux. En 1941, on s'est efforcé autant que possible de publier des statistiques qui correspondent aux comtés municipaux. Afin de comparer avec les données de recensement des années précédentes, les limites de certains comtés n'ont cependant pas été disposées de façon à se conformer aux récents changements des comtés municipaux. Des détails sur les municipalités ainsi affectées se trouvent à l'appendice B de ce volume.

Comté de Lennox et Addington en Ontario.—Dans toutes les publications de recensement antérieures à 1941, le comté de Lennox et Addington était divisé en deux parties, une appelée Lennox et l'autre Addington. Comme Lennox et Addington ne forment qu'un comté, ces deux parties ont été unies dans les publications du recensement de 1941.

District de Patricia.—Lors des précédents recensements, les statistiques pour le district de Patricia étaient publiées séparément, car alors il formait un district séparé. Par une loi de la Législature de l'Ontario (Statuts Revisés de l'Ontario, 1937, chap. 5, art. 1), ce district a été incorporé au district territorial de Kenora. En conséquence, dans les publications du recensement de 1941, les statistiques pour ce district ont été incluses avec les statistiques pour le district de Kenora.

Population rurale et urbaine.—Pour les fins du recensement la population rurale est celle vivant en dehors des limites des cités, villes ou villages incorporés. Cette population peut vivre en des townships, paroisses ou municipalités rurales organisées ou vivre dans des régions non organisées. La description des régions rurales de chaque province se trouve à l'appendice B de ce volume.

The urban population, on the other hand, is the population residing within the boundaries of incorporated cities, towns or villages. The laws governing the incorporation of cities, towns and villages vary considerably between provinces. The following is a résumé of the various provincial laws governing incorporations:—

Under the terms of the British North America Act the right to make laws governing the creation and administration of municipal institutions is assigned exclusively to the legislatures of the provinces.

In the exercise of this sovereign power the governments of the several provinces have enacted statutes called Municipal Acts, in which they delegate to appointed officers the right to erect a locality into a municipal corporation when such a locality is able to produce evidence of such requirements as are prescribed. Every petition for incorporation which is unable to produce such statutory evidence must come directly before the respective legislature, which if it is satisfied with the evidence contained in the petition may grant same by way of what is called a Special Act.

A brief statement of the law and practice in each province pertaining to municipal incorporations at the date of the 1941 Census is given under the name of the province to which it relates.

Prince Edward Island

Incorporations in this province may be granted under:

Special Act: There is no general municipal act. All incorporations are made under Special Acts of the legislature.

Nova Scotia

Incorporations in this province may be granted under:

(1) Village Supply Act: No statutory provision has ever been made for the incorporation of a village, but under this Act the Governor-in-Council may appoint three commissioners to be a body corporate, to look after the affairs of a village organized under the Village Supply Act (water supply, fire protection, etc.) which requires a population of 400 in an area of 640 acres.

(2) Towns Incorporation Act 1888: It originally required a population of 700. In 1918 this was raised to 1,000 and in 1923 to 1,500.

(3) Special Acts: Cities and villages may be incorporated under Special Acts. Localities not having the statutory requirements may also be erected into towns under Special Act.

New Brunswick

Incorporations in this province may be granted under:

(1) The Villages Incorporation Act, 1920: No statutory provision for the erection of a village existed until this Act was passed. Under its provisions no area containing more than 1,500 acres and (except under special circumstances) no area containing less than 300 persons actually resident therein shall be constituted a village under the Act.

Under special circumstances, when the area of the proposed village contains a relatively thickly settled population although less than 300 persons, the Governor-in-Council may provide for its incorporation under the Act.

(2) The Towns Incorporation Act, 1896: Previous to the passing of this Act no statutory provision existed for the erection of a town. As amended it now provides that when the inhabitants

D'un autre côté, la population urbaine est celle qui demeure dans les limites de cités, villes ou villages incorporés. Les lois relatives à l'incorporation des cités, villes et villages varient considérablement avec les provinces. Suit un résumé des diverses lois provinciales régissant l'incorporation:—

Par l'Acte de l'Amérique Britannique du Nord, le droit de statuer sur la création et l'administration des institutions municipales appartient exclusivement aux législatures des provinces.

Dans l'exercice de ces pouvoirs souverains, les gouvernements de plusieurs provinces ont adopté des statuts appelés lois des municipalités, dans lesquelles ils délèguent à des officiers choisis par eux le droit d'ériger une localité en corporation municipale quand telle localité est capable de prouver qu'elle satisfait à toutes les exigences prescrites. Toute requête pour l'incorporation qui ne peut produire la preuve statutaire ainsi exigée doit être adressée directement à sa législature qui, si elle est satisfaite de la preuve contenue dans la requête, peut accorder l'incorporation par le moyen de ce qui est appelé une loi spéciale.

Suivent les résumés des lois et pratiques dans chaque province en ce qui concerne les incorporations municipales à la date du recensement de 1941.

Ile du Prince-Edouard

Les incorporations dans cette province peuvent être accordée d'après:

Une loi spéciale: Il n'y a pas de loi municipale générale. Toutes les incorporations sont faites comme lois spéciales de la législature.

Nouvelle-Ecosse

Les incorporations dans cette province peuvent être accordées d'après:

(1) La loi des villages: Il n'y a pas de provision statutaire pour l'incorporation des villages, mais en vertu de cette loi le Gouverneur en Conseil peut nommer trois commissaires formant une corporation pour voir à l'administration des affaires d'un village organisé d'après la loi des villages (fourniture de l'eau, protection contre le feu, etc.) qui exige une population de 400 âmes dans un territoire de 640 acres.

(2) La loi des incorporations en villes, 1888: Elle exigeait antérieurement une population de 700 âmes. En 1918 ce chiffre a été élevé à 1,000 et en 1923, à 1,500.

(3) Des lois spéciales: Les cités et villages peuvent être incorporés par des lois spéciales. Les localités ne répondant pas aux exigences statutaires peuvent aussi être érigées en villes par une loi spéciale.

Nouveau-Brunswick

Les incorporations dans cette province peuvent être accordées d'après:

(I) La loi d'incorporation des villages, 1920: Il n'y avait pas de provision statutaire pour l'érection d'un village jusqu'à ce que cette loi eût été adoptée. D'après ces exigences, nul territoire contenant plus de 1,500 acres et (excepté dans des circonstances spéciales) nulle région contenant moins de 300 personnes y résidant actuellement ne peut constituer un village en vertu de cette loi.

Dans des circonstances spéciales, quand la région du village projeté contient une population relativement dense bien que de moins de 300 personnes, le Gouverneur en Conseil peut accorder son incorporation en vertu de cette loi.

(2) La loi d'incorporation des villes, 1896: Avant l'adoption de cette loi il n'y avait pas de provision statutaire pour érection en ville. Telle qu'amendée, elle spécifie que si les habitants d'une ville qui n'est

of a town not now incorporated desire to become incorporated under the Act a requisition signed by at least fifty ratepayers of the town shall be presented to the Sheriff of the county in which such town is situate, requisitioning such Sheriff to hold a poll of the ratepayers of the town to determine whether the inhabitants thereof shall become incorporated under the provisions of the Act. The Sheriff shall not act upon such a requisition unless he is satisfied that the population within the boundaries of the proposed town exceeds 1,000.

(3) Special Acts: Cities may be erected by Special Acts. Villages and towns may also be erected under Special Acts if they have not the statutory requirements of the Villages Act or Towns Act respectively.

Quebec

Incorporations in this province may be granted under:—

(1) Municipal Code: Any territory in order to be erected into a village municipality must contain at least 40 inhabited houses within a space of 60 superficial arpents and the taxable immovable property in such territory must have a value, according to the valuation in force, of at least $50,000.

Nevertheless, in the case of a territory not already forming part of a city, town, village or parish municipality, and situated within three miles of the National Transcontinental Railway, it is sufficient for the application to be signed by at least 25 proprietors of immovable property in such territory.

(2) Cities and Towns Act, 1903: The Lieutenant Governor-in-Council may by letters patent erect a territory of a village municipality into a town municipality if it contains at least 2,000 souls, and the territory of a village or town municipality, if it contains at least 6,000 souls, into a city municipality.

(3) Quebec Mining Act and an Act Respecting the Municipal Organization of Mining Villages: A mining village or town may be created under these two Acts. They prescribe no population requirements.

(4) Special Acts: Localities unable to satisfy the statutory requirements of the Municipal Code or the Cities and Towns Act may be erected into villages, towns and cities by Special Acts.

Ontario

Incorporations in this province may be granted under:—

(1) Municipal Act: This Act provides for the erection of cities, towns and villages as follows:

(*a*) Villages: A district having a population exceeding 750 on an area not exceeding 500 acres may be erected into a village. When the population of a village exceeds 1,000 an area of 200 acres or a fraction thereof may be added for each additional 1,000 or fraction thereof in excess of 1,000 of its population.

(*b*) Towns: A Village having a population of not less than 2,000 may be erected into a town. The area of a town shall not exceed 500 acres for the first 1,000 or less with 200 acres or a fraction thereof added for each additional 1,000 or fraction thereof in excess of 1,000 of its population.

In unorganized territory, the area of a town shall not exceed 750 acres for the first 500 of its population with 300 acres or a fraction thereof added for each additional 500 of its population or a fraction thereof.

Proximate streets or buildings may be added to a town when it is considered desirable.

pas encore incorporée désirent être incorporés en vertu de cette loi, une requête doit être signée par au moins 50 contribuables de la ville et présentée au shériff du comté dans lequel est située cette ville, demandant à tel shériff de tenir une assemblée des contribuables de la ville pour déterminer si les habitants de ladite ville pourront s'incorporer en vertu des provisions de la loi. Le shériff ne doit prendre aucune initiative à la réception de cette requête, à moins qu'il se soit assuré que la population dans les limites de la ville projetée dépasse 1,000 âmes.

(3) Des lois spéciales: Les cités peuvent être érigées par lois spéciales. Les villages et villes peuvent aussi être érigés par lois spéciales, s'ils ne satisfont pas aux exigences statutaires de la loi des villages et villes respectivement.

Québec

Les incorporations dans cette province peuvent être accordées d'après:—

(1) Le code municipal: Pour être érigé en municipalité de village, un territoire doit contenir au moins 40 maisons occupées dans un territoire de 60 arpents et la propriété immobilière imposable dans ledit territoire doit avoir une valeur, d'après l'évaluation alors en vigueur, d'au moins $50,000.00.

Néanmoins, dans le cas d'un territoire ne formant pas encore partie d'une cité, ville, village ou municipalité de paroisse et situé à moins de 3 milles du Chemin de Fer Transcontinental National, il suffit que la requête soit signée par au moins 25 propriétaires d'immeubles dans ledit territoire.

(2) La loi des cités et villes, 1903: Le Lieutenant-Gouverneur en Conseil peut, par lettres patentes, ériger un territoire de municipalité de village en municipalité de ville s'il contient au moins 2,000 âmes, et le territoire d'un village ou municipalité de ville s'il contient au moins 6,000 âmes, en municipalité de cité.

(3) La loi des mines du Québec et la loi de l'organisation municipale des villages miniers: Un village ou ville minière peut être créé en vertu de ces deux lois. Il n'y a pas d'exigences prescrites sur la population.

(4) Des lois spéciales: Les localités incapables de répondre à toutes les exigences statutaires du code municipal ou de la loi des cités et villes peuvent être érigées en villages, villes et cités par des lois spéciales.

Ontario

Les incorporations dans cette province peuvent être accordées d'après:—

(1) La loi municipale: Cette loi pourvoit à l'érection de cités, villes et villages comme suit:—

(*a*) Villages: Un district ayant une population dépassant 750 âmes réparties sur un territoire ne dépassant pas 500 acres peut être érigé en village. Quand la population d'un village dépasse 1,000 âmes, une superficie de 200 acres ou une fraction de cette superficie peut être ajoutée pour chaque addition de 1,000 âmes ou fraction de mille, en excédent du millier de sa population.

(*b*) Villes: Un village ayant une population de pas moins de 2,000 âmes peut être érigé en ville. La superficie d'une ville ne doit pas dépasser 500 acres pour le premier mille de population ou moins avec 200 acres ou une fraction en plus pour chaque 1,000 additionel ou fraction de mille en excédent du premier mille de sa population.

Dans un territoire inorganisé la superficie de la ville ne doit pas dépasser 750 acres pour les premiers 500 habitants avec 300 acres ou une fraction de cette étendue ajoutée pour chaque 500 autres habitants ou fraction de ce nombre.

Les rues ou les édifices voisins peuvent être ajoutés à une ville quand la chose est considérée désirable.

(*c*) Cities: A town having a population of 15,000 may be erected into a city.

Proximate streets or buildings may be added to the city when it is deemed desirable.

(2) Special Acts: Districts which do not qualify as to population and area under the Municipal Act may be erected into villages, towns and cities by Special Acts.

Manitoba

Incorporations in this province may be granted under:—

(1) The Municipal Act: It brings all incorporated villages, towns and cities, except Winnipeg and St. Boniface, within its general scope and provides for the erection of:

(*a*) Villages: Where a locality contains over 500 inhabitants and where the residences of such inhabitants are sufficiently close together to form an incorporated village then upon petition of not fewer than seventy-five householders of the locality the Lieutenant-Governor-in-Council may by letters patent incorporate the inhabitants of such locality as a village.

The boundaries of a village so incorporated shall not include an area of more than 640 acres unless its population exceeds 2,000 and then 160 acres may be added for every additional 1,000 inhabitants over the first two thousand.

The Lieutenant-Governor may on petition add to the village any part of the locality adjacent which from the proximity of the streets or buildings therein, or the probable future exigencies of the village, it is desirable to add thereto.

(*b*) Towns: When a locality contains over 1,500 inhabitants then on petition of not fewer than 150 householders of such locality the Lieutenant-Governor-in-Council may by letters patent incorporate the inhabitants of such locality as a town.

The boundaries of a town the population of which does not exceed 2,000 shall not include an area of more than 640 acres. If the population exceeds 2,000 its limits may be increased in the proportion of 160 acres for every additional 1,000 inhabitants. In calculating the area of a town public parks shall be excluded.

A village containing 1,500 inhabitants may be erected into a town.

Proximate streets or buildings may be included in the area of a town as also areas which considering the probable future exigencies of a town it is desirable to include.

(*c*) Cities: A town containing over 10,000 inhabitants may be erected into a city.

(*d*) Suburban Municipalities: The rural municipalities of St. James, Fort Garry, St. Vital, East Kildonan and West Kildonan, and the towns of Tuxedo and Transcona are suburban municipalities.

(*e*) Rural Municipalities: The rural part of the Province is divided into rural municipalities for purposes of local government. There are no population or area requirements governing their erection.

(2) Localities which do not qualify under the Municipal Act may be incorporated by Special Act.

(*c*) Cités: Une ville ayant une population de 15,000 âmes peut être érigée en cité.

Les rues ou les édifices voisins peuvent être ajoutés à la cité quand la chose est considérée désirable.

(2) Des lois spéciales: Les districts qui ne répondent pas aux exigences quant à la population et la superficie prévues dans la loi municipale peuvent être érigés en villages, villes et cités par lois spéciales.

Manitoba

Les incorporations dans cette province peuvent être accordées d'après:—

(1) La loi municipale: Elle régit en général tous les villages, villes et cités incorporés, excepté Winnipeg et Saint-Boniface, et pourvoit à l'érection de:

(*a*) Villages: Quand une localité contient plus de 500 habitants et que les domiciles de ces habitants sont suffisamment rapprochés les uns des autres pour former un village incorporé, sur une pétition de pas moins de soixante-quinze tenanciers de la localité adressée au Lieutenant-Gouverneur en Conseil, des lettres patentes peuvent être émises incorporant les habitants de telle localité en village.

Les frontières d'un village ainsi incorporé ne doivent pas comprendre une superficie de plus de 640 acres, à moins que sa population ne dépasse 2,000 âmes; alors on peut ajouter 160 acres pour chaque 1,000 habitants additionnels en plus des premiers deux mille.

Le Lieutenant-Gouverneur peut, sur requête, ajouter au village toute partie des localités adjacentes qui est désirable, vu la proximité des rues et des édifices ou les exigences futures probables du village.

(*b*) Villes: Quand une localité contient plus de 1,500 habitants, sur une requête de pas moins de 150 tenanciers de la dite localité, le Lieutenant-Gouverneur en Conseil, par lettres patentes, peut incorporer les habitants de cette localité comme ville.

Les frontières d'une ville dont la population ne dépasse pas 2,000 âmes ne doivent pas comprendre une superficie dépassant 640 acres. Si la population dépasse 2,000 âmes, ses limites peuvent être étendues dans la proportion de 160 acres pour chaque 1,000 habitants additionnels. En calculant la superficie d'une ville, les parcs publics ne sont pas compris.

Un village contenant 1,500 habitants peut être érigé en ville.

Les rues et édifices voisins peuvent être compris dans la superficie d'une ville ainsi que les régions voisines qui sont considérées comme désirables pour le développement futur probable de la ville.

(*c*) Cités: Une ville contenant plus de 10,000 habitants peut être érigée en cité.

(*d*) Municipalités suburbaines: Les municipalités rurales de St. James, Fort Garry, St. Vital, East Kildonan et West Kildonan, et les villes de Tuxedo et Transcona sont des municipalités suburbaines.

(*e*) Municipalités rurales: La partie rurale de la province est divisée en municipalités rurales pour fins de gouvernement local. Il n'y a pas d'exigences de population ou de superficie pour leur érection.

(2) Les localités ne répondant pas aux exigences requises par la loi municipale peuvent être incorporées par lois spéciales.

Saskatchewan

Incorporations in this province may be granted under:—

(1) Municipal Acts: There is now no general Municipal Act, but all statutory provisions relating to the creation and dissolution of municipal institutions are to be found in the R.S.S., 1940, under the heading "Cities, Towns, Villages, Rural Municipalities and Local Improvements." They provide for the erection of:

(*a*) Villages: No portion of the province shall be erected into a village with an area greater than 240 acres of land and no such portion of the province shall be so erected unless it contains not less than 100 persons actually resident therein. Outlying areas may be annexed to a village. The residents of a summer resort may also be erected into a village.

(*b*) Towns: No village shall be erected into a town unless it contains 500 persons actually resident therein.

(*c*) Cities: A town having a population of 5,000 or more may be erected into a city.

(2) Special Acts: Localities which do not qualify under the Municipal Acts may be erected into urban municipalities by Special Acts.

Alberta

Incorporations in this province may be granted under:—

(1) The Town and Village Act:

(*a*) The Minister of Municipal Affairs may by a written order form into a village any part of the province which is not wholly or in part included in a city, town or village, if such part contains not less than 35 separate buildings, each of which has been occupied continuously as a dwelling house for a period of at least one month.

Summer villages may also be erected if they contain 35 separate buildings each of which has been occupied continously as a dwelling house for a period of at least one month.

(*b*) Towns: A village containing a population of over 700 inhabitants may be erected into a town.

(2) Special Acts: Localities which do not satisfy the requirements of the aforesaid acts may be incorporated by Special Acts. All cities are incorporated by Special Acts.

British Columbia

Incorporations in this Province may be granted under:—

(1) Village Municipalities Act: The inhabitants of any area which is not included within the limits of any municipality may be incorporated as a village municipality.

(2) Towns: There is no statutory provision for the erection of towns.

(3) Cities: The Municipalities Incorporation Act prescribes that any locality in the province not exceeding 2,000 acres, and having a population of 100 male British subjects of the full age of 21 years may be erected into a city.

(4) Special Act: Districts which are not able to satisfy the requirements of the municipal acts may be granted incorporation by special Act.

Saskatchewan

Les incorporations dans cette province peuvent être accordées d'après:—

(1) Les lois municipales: Il n'y a pas actuellement de lois municipales générales, mais toutes les prévisions statistiques relatives à la création et la dissolution d'institutions municipales paraissent dans les Statuts Revisés, 1940, sous l'en-tête "Cités, villes, villages, municipalités rurales et améliorations locales". Ils prévoient à l'érection de:

(*a*) Villages: Nulle portion de la province ne peut être érigée en village dans une superficie dépassant 240 acres de terre et aucune telle portion de la province ne peut être érigée en village à moins qu'elle contienne au moins 100 personnes y résidant. Les régions voisines peuvent être annexées au village. Les résidants d'une villégiature peuvent aussi être érigés en villages.

(*b*) Villes: Aucun village ne peut être érigé en ville à moins qu'il ne contienne 500 personnes y habitant.

(*c*) Cités: Une ville ayant une population de 5,000 âmes ou plus peut être érigée en cité.

(2) Des lois spéciales: Les localités qui ne satisfont pas aux exigences des lois municipales peuvent être érigées en municipalités urbaines par lois spéciales.

Alberta

Les incorporations dans cette province peuvent être accordées d'après:

(1) La loi des villes et villages:

(*a*) Le Ministre des Affaires Municipales peut, par un ordre écrit, former en village toute partie de la province qui n'est pas en entier ou en partie comprise dans une cité, ville ou village, si telle partie ne contient pas moins de 35 bâtiments séparés et que chacun a été occupé continuellement comme résidence pendant une période d'au moins un mois.

Des villages d'été peuvent aussi être érigés s'ils contiennent 35 bâtiments séparés et que chacun a été occupé continuellement comme résidence pendant une période d'au moins un mois.

(*b*) Villes: Un village contenant une population de plus de 700 habitants peut être érigé en ville.

(2) Des lois spéciales: Les localités ne répondant pas aux exigences des lois qui précèdent peuvent être incorporées par des lois spéciales. Toutes les cités peuvent être incorporées par des lois spéciales.

Colombie Britannique

Les incorporations dans cette province peuvent être accordées d'après:

(1) La loi des municipalités de village: Les habitants d'une région qui n'est pas incluse dans les limites d'une autre municipalité peuvent être incorporés comme municipalité de village.

(2) Villes: Il n'y a pas de provision statutaire pour l'érection des villes.

(3) Cités: La loi de l'incorporation des municipalités pourvoit que toute municipalité dans la province ne couvrant pas une étendue de 2,000 acres et ayant une population de 100 habitants mâles, sujets britanniques, âgés de 21 ans et plus, peut être érigée en cité.

(4) Une loi spéciale: Les districts ne répondant pas aux exigences de la loi municipale peuvent être incorporés par loi spéciale.

Yukon Territory

The Yukon Territory was established as a self-governing territory in 1898 by the Yukon Territory Act. This Act provided that the Yukon would be governed by a Commissioner and a council of six persons appointed by the Governor-in-Council.

Laws passed by this Governing Body are called Ordinances, and they become effective on the date they are assented to by the Commissioner. These Ordinances must be mailed to the Secretary of State within ten days after the passing thereof and laid before both Houses of Parliament. They may be disallowed by the Governor-in-Council within two years after the passage.

In 1908 the Council was made elective and its membership increased to ten, but in 1919 this membership was reduced to three.

In 1901 an Ordinance was passed incorporating the city of Dawson. It provided for an elected mayor. On March 30, 1914, a plebiscite was taken with the result that the constitution of the city of Dawson was changed making the Commissioner Ex-Officio Mayor and providing for a council of two persons to represent the districts of north and south Dawson, respectively.

Chapter IV of the Ordinances of 1919 vested all rights and duties under the provisions of the Dawson City Corporation Ordinances in the Commissioner.

In 1901 the Towns Ordinance was passed. It provides that a district containing ten dwellings may be erected into a town by order of the Commissioner. Provision is made for an elected official called an overseer. Law suits for or against the town are initiated or defended in the name of the overseer.

Table 10 is a historical presentation of the population of each Canadian locality back to 1871, or at least back to the time when it first appeared as a separate unit. The addition of the population of all rural parts and of all urban parts will not give the totals for rural and urban population which are given in other historical tables. The reason for this is that in Table 10 the population of certain cities, towns and villages has been shown separately, when available, prior to the date of incorporation. It will be noted also that the population of certain urban centres, for previous censuses, is not the same in Table 10 as in Table 16; the reason for this is that in Table 10 the population given is that of the centre as at the time of the taking of each census, while in Table 16 it is the population of the *area* which constituted this particular centre in 1941. In other words, the figure given in Table 16, for any census prior to 1941, includes the population of all the areas annexed to the centre between the date of that particular census and the year 1941.

Density of Population.—Tables 5, 6 and 7 give the density of population for Canada as a whole, each province, each county and each urban centre with a population of 2,500 or more. For Canada, the provinces and the counties, the areas were obtained from the Surveyor General's Branch of the Department of Mines and Resources. For the urban centres, the areas were obtained from the municipal reports of the various provinces, except in a few cases where they were obtained through correspondence with the officials of the centres in question. Obviously, the density was obtained by dividing the population by the area. This method assumes that the whole area is equally densely settled. This very seldom is the case and, consequently, such figures of density have a limited value. To illustrate the point we may

Territoire du Yukon

Le Yukon a été établi comme territoire autonome en 1898 par la loi du Territoire du Yukon. Cette loi décrète que le Yukon est gouverné par un Commissaire et un conseil de six personnes nommées par le Gouverneur en Conseil.

Les lois adoptées par le corps administratif sont appelées ordonnances et deviennent en vigueur à la date de leur sanction par le commissaire. Ces ordonnances doivent être adressées au Secrétariat d'Etat dans les dix jours après leur adoption et placées devant les deux chambres du Parlement. Elles peuvent être désavouées par le Gouverneur en Conseil dans les deux années qui suivent leur adoption.

En 1908, ce Conseil est devenu électif et le nombre de ses membres porté à dix, mais en 1919 ce nombre de membres a été réduit à trois.

En 1901 une ordonnance a été adoptée incorporant la cité de Dawson. Elle pourvoit à l'élection d'un maire. Le 30 mars 1914, un plébiscite fut pris avec le résultat que la constitution de la cité de Dawson fut changée, le commissaire devenant maire ex-officio et pourvoyant à un conseil de deux personnes pour représenter respectivement les districts nord et sud de Dawson.

Le chapitre IV des ordonnances de 1919 transmet au Commissaire tous les droits et devoirs prévus dans l'ordonnance incorporant la cité de Dawson.

En 1901 fut adoptée l'ordonnance des villes. Par cette ordonnance un district contenant dix maisons peut être érigé en ville par ordre du Commissaire. Des provisions y sont mentionnées pour l'élection d'un officier appelé "overseer". Les poursuites pour ou contre la ville doivent être prises ou contestées selon le cas au nom de l'"overseer".

Le tableau 10 est une présentation historique de la population de chaque localité canadienne depuis 1871, ou au moins depuis sa première apparition comme unité distincte. L'addition des populations de toutes les parties rurales et de toutes les parties urbaines ne concorde pas avec les totaux pour les populations rurales et urbaines qui sont donnés dans les autres tableaux historiques. La raison de cette discordance est que dans le tableau 10 la population de certaines cités, villes et villages antérieurement à la date de l'incorporation est montrée séparément quand la chose est possible. Il est à noter aussi que la population de certains centres urbains dans les recensements antérieurs n'est pas la même dans le tableau 10 que dans le tableau 16. La raison en est que dans le tableau 10 la population donnée est celle du centre à l'époque du recensement, tandis que dans le tableau 16 c'est la population de la région qui constituait ce centre particulier en 1941. En d'autres termes, les chiffres donnés dans le tableau 16 pour tout recensement antérieur à 1941 comprennent la population pour ce recensement de toutes les régions annexées à ce centre entre la date de ce recensement particulier et l'année 1941.

Densité de la population.—Les tableaux 5, 6 et 7 montrent la densité de la population du Canada dans son ensemble, dans chaque province, chaque comté et chaque centre urbain de 2,500 habitants ou plus. Pour le Canada, les provinces et les comtés, les délimitations ont été obtenues de la Branche de l'Arpenteur Général, du Ministère des Mines et Ressources. Pour les centres urbains, les régions ont été délimitées en recourant aux rapports municipaux des différentes provinces, excepté quelques cas où elles ont été obtenues par correspondance avec les autorités des centres en question. Evidemment, la densité a été calculée en divisant la population par la superficie. D'après cette méthode, il est admis que toute la région a une densité égale, mais ce n'est pas toujours le cas et, en conséquence, ces chiffres de densité ont une valeur

take the county of Montcalm in the province of Quebec, which is an extreme example. It has a land area of 3,894 square miles and a density of 3·91 persons per square mile. Of its total population, 93·7 per cent resides in the fifteen organized municipalities of the county. These municipalities have only 11·6 per cent of the total area of the county and within their boundaries the pupulation has a density of 31·52 persons per square mile. On the other hand, only 6·3 per cent of the population resides in the unorganized parts which have 88·4 per cent of the total land area of the county, giving a density of 0·14 persons per square mile. Volumes I and VIII of the 1941 Census will show density figures for the farm population. These figures will undoubtedly have more significance than those published in Tables 5 and 6 of this volume.

Electoral Districts.—Table 9 gives for 1931 and 1941 the population of Canada by electoral districts according to the 1933 Redistribution. It will be seen that where the electoral districts coincide with the counties, the figures for the subdivisions of such counties are not shown in Table 9 but a reference is given to Table 10 where the information is readily available. On the other hand, where the boundaries of the electoral districts cut across the county boundaries, the figures are given in detail in Table 9.

It will be remembered that in Canada the legal *raison d'être* of the census is to determine representation in the Dominion House of Commons. Volume I gives in detail the calculations to determine representation.

Location of Urban Centres.—Table 16 of this volume is an innovation in the 1941 Census. It gives the population of every incorporated centre and also the rural municipality and county or census division in which it is located. Experience has already shown the usefulness of this table.

Age.—The instructions to enumerators specified that the age to be reported for every person one year old or more was to be in completed years at the last birthday. In the case of infants under one year the entry was to be expressed in completed months as twelfths of a year. A fifteen-day-old child would thus be reported as $\frac{0}{12}$ and in the case of one who was two months and ten days old, the entry would be $\frac{2}{12}$.

Age-assignment.—It will be noted that in all the tables classifying the population by age, there are no unstated ages. In this census, as well as in any past census, enumerators have, in some instances, neglected to enter the age of the person. In the 1941 Census, ages were assigned in all such cases. The number thus assigned was 5,606. The method followed for the assignment is described in detail in Volume I where it may be consulted.

Conjugal Condition.—In 1941, the classification of conjugal condition was extended to show persons who were married but who were separated permanently for domestic reasons though they were not divorced. This class of persons is termed "Permanently Separated".

Racial Origin.—The enumerators were required to ascertain the racial origin of each person. The term "racial origin", for census purposes, has mainly a cultural and geographical implication; it suggests whence our people came and their implied cultural background. In other words, it deals with the sources from which the Canadian population has been derived.

limitée. Pour illustrer ce point, nous prenons le comté de Montcalm, dans la province de Québec, qui est un exemple de l'extrême. Il a une superficie terrienne de 3,894 milles carrés et une densité de 3·91 personnes par mille carré. De sa population totale, 93·7 p.c. habitent les quinze municipalités organisées du comté. Ces municipalités couvrent seulement 11·6 p.c. de la superficie totale du comté et dans leurs frontières la population a une densité de 31·52 personnes par mille carré. D'un autre côté, seulement 6·3 p.c. de la population habitent les parties inorganisées qui couvrent 88·4 p.c. de la superficie de tout le comté, donnant une densité de 0·14 p.c. de personne par mille carré. Les Volumes I et VIII du Recensement de 1941 donneront des chiffres de densité de la population agricole. Ces chiffres, sans aucun doute, seront plus significatifs que ceux publiés dans les tableaux 5 et 6 de ce volume.

Districts électoraux.—Le tableau 9 donne pour 1931 et 1941 la population du Canada par districts électoraux suivant la redistribution de 1933. On y voit que là où les districts électoraux coïncident avec les comtés, les chiffres des subdivisions de ces comtés ne paraissent pas dans le tableau 9, mais un relevé y est donné au tableau 10 où l'information est très claire. D'autre part, là où les frontières des districts électoraux dépassent celles du comté, les chiffres sont donnés en détail dans le tableau 9.

A se rappeler qu'au Canada la raison d'être du recensement est de déterminer la représentation à la Chambre des Communes du Dominion. Le Volume I donne en détail les calculs déterminant cette représentation.

Localisation des centres urbains.—Le tableau 16 de ce volume est une innovation dans le recensement de 1941. Il donne la population de chaque centre incorporé ainsi que chaque municipalité rurale et de comté ou division de recensement où il est situé. L'expérience a déjà démontré l'utilité de ce tableau.

Age.—Les instructions aux énumérateurs spécifient qu'il fallait inscrire l'âge de toute personne d'un an ou plus en années complètes lors du dernier anniversaire de naissance. Dans le cas des enfants au-dessous d'un an, l'entrée devait être exprimée en mois complets ou douzième d'année. Un enfant de quinze jours de cette manière devait être inscrit comme ayant $\frac{0}{12}$; dans le cas d'un enfant de deux mois et dix jours, l'entrée devait être $\frac{2}{12}$.

Attribution d'âge.—On notera que dans tous les tableaux classifiant la population par âge, il n'y a pas d'âge non déclaré. Dans ce recensement, aussi bien que dans les recensements antérieurs, les énumérateurs ont dans certains cas négligé d'entrer l'âge de la personne. Dans le recensement de 1941, les âges sont attribués dans chacun de ces cas. Le nombre de ceux-ci est de 5,606. La méthode suivie pour cette attribution est décrite en détail dans le Volume I.

Etat conjugal.—En 1941, la classification de l'état conjugal a été étendue pour indiquer les personnes mariées, mais qui sont séparées en permanence pour des raisons domestiques, bien qu'elles n'aient pas divorcé. Cette classe de personnes est décrite "Séparées en permanence".

Origine raciale.—Les énumérateurs devaient s'assurer de l'origine raciale de chaque personne. L'expression "origine raciale" pour fin de recensement a une implication culturelle et géographique. Elle donne une idée des origines de notre pays et de l'arrière-plan culturel; en d'autres termes, elle aide à trouver les sources de la population canadienne.

There has been, at times, a certain amount of confusion between "racial origin" and "nationality" The confusion arises from the fact that the term "Canadian" is not accepted to describe racial origin; the contention being that there is not, as yet, a well-defined Canadian race. It should be remembered, however, that while there is no "Canadian" race, there is a well-defined Canadian nationality and that while the term "Canadian" is not acceptable to describe racial origin, it is essential to describe nationality.

In tracing origin in the case of persons of European descent, the line is through the father. By applying this rule, those of mixed family origin are resolved with a fair degree of accuracy into their constituent elements.

For persons belonging to stocks involving difference in colour (i.e., the black, yellow and brown races) the entry was Negro, Japanese, Chinese, Hindu, Malayan, etc., respectively; orientals being thus segregated by country of origin.

In the case of children begotten of marriages between white and black, white and Chinese, etc., the entry under racial origin was Negro, Chinese, etc.

For the Canadian aborigines, the entry was Indian or Eskimo and for persons of white and Indian blood the entry was "Half-breed".

Racial Origin of Adopted Children.—In the case of adopted children who had no stated racial origin, the origin of the foster-father was entered.

Scandinavian.—The racial group called "Scandinavian" includes Danish, Icelandic, Norwegian and Swedish.

Religion.—Enumerators were instructed to enter for each person the religion professed, specifying the religious body, denomination, sect or community to which the person adhered or belonged. Enumerators were warned against the use of indefinite terms. Nevertheless, in some instances enumerators have reported the word "Protestant" not to mean a separate religious body but simply to mean that the person belonged to one of the Protestant denominations and "Protestant" as a separate religious denomination was included in the various tables. The reader should keep this fact in mind when studying Tables 35, 36, 37, 39 and 40.

Birthplace.—Enumerators were instructed to report the birthplace as follows:

1. *Born in Canada.*—In the case of persons born in Canada, the name of the province or territory was to be entered on the schedule.

2. *Born in the British Isles.*—It was not sufficient to enter Great Britain or British Isles in the case of these persons, but the particular country, such as England, Scotland, Northern Ireland, Eire, Isle of Man, etc., was to be returned.

3. *Born in Continental Europe.*—For persons born on the Continent of Europe, the country of birth as it was constituted in 1936 was to be reported. For example, persons born in what constituted Austria before the German invasion of 1938 were to be reported as born in Austria and not in Germany.

Immigration.—The period of arrival in Canada of all persons born outside of Canada and also of all persons who though born in Canada, had resided in another country for a period of one year or more was obtained.

Il y a eu, à certains temps, de la confusion entre origine raciale et nationalité. La confusion vient de ce que l'expression "Canadien" ou "Canadienne" n'est pas acceptée pour décrire l'origine raciale, vu la prétention qu'il n'y a pas encore une race canadienne bien définie. Il faut se rappeler toutefois que, s'il n'y a pas de race canadienne, il y a une nationalité canadienne bien définie et que, si le terme "Canadien" n'est pas acceptable comme description de l'origine raciale, il est essentiel à la description de la nationalité.

En retraçant l'origine d'une personne d'ascendance européenne, c'est la lignée mâle qui est suivie. En suivant cette règle, il est assez facile d'établir avec un certain degré d'exactitude les éléments des familles d'origines mixtes.

Pour les personnes de races impliquant une différence en couleur (telles que les races noires, jaunes et brunes) l'entrée est Nègre, Japonais, Chinois, Hindou, Malais, etc., respectivement, les Orientaux étant ainsi séparés par pays d'origine.

Dans le cas d'enfants issus de mariages entre blancs et noirs, blancs et Chinois, etc., leur origine raciale est entrée comme Nègre, Chinois, etc.

Pour les aborigènes canadiens, l'entrée est Indien ou Eskimo et pour les personnes issues de blancs et Indiens, l'entrée est "Métis".

Origine raciale des enfants adoptifs.—Dans le cas d'enfants adoptifs dont l'origine raciale n'est pas connue, celle du père adoptif, est acceptée.

Scandinave.—Le groupe racial désigné comme "Scandinave" comprend les Danois, Islandais, Norvégiens et Suédois.

Religion.—Les énumérateurs devaient entrer pour chaque personne la religion qu'elle professait, spécifiant le corps religieux, la dénomination, secte ou communauté à laquelle elle adhérait ou appartenait. Les énumérateurs avaient été prévenus contre l'emploi de termes indéfinis. Néanmoins, dans certains cas, les énumérateurs ont attribué le mot "Protestant" non pas comme désignant un corps religieux séparé, mais signifiant que la personne appartenait à une dénomination protestante et "Protestante" comme dénomination religieuse distincte a été incluse dans les différents tableaux. Le lecteur doit tenir compte de ceci en étudiant les tableaux 35, 36, 37, 39 et 40.

Lieu de naissance.—Les énumérateurs avaient instruction d'inscrire le lieu de naissance comme suit:

1. *Né au Canada.*—Dans le cas de personnes nées au Canada, le nom de la province ou du territoire doit être entré dans le cahier.

2. *Né dans les Iles Britanniques.*—Il n'était pas suffisant d'entrer Grande-Bretagne ou Iles Britanniques dans le cas de ces personnes, mais le pays particulier, tel qu'Angleterre, Ecosse, Irlande du Nord, Eire, Ile de Man, etc., devait être entré.

3. *Né dans l'Europe continentale.*—Pour les personnes nées sur le continent d'Europe, le pays de naissance doit être inscrit tel que constitué en 1936. Par exemple, les personnes nées dans ce qui constituait l'Autriche avant l'invasion allemande en 1938 devaient être entrées comme nées en Autriche et non en Allemagne.

Immigration.—La période d'arrivée au Canada de toute personne née en dehors du Canada et aussi de toute personne qui, bien que née au Canada, avait séjourné dans un autre pays pour une période d'un an ou plus a été comptée.

For persons born in the British Empire, outside of Canada, if the immigration occurred in 1936, it was to be specified whether it had occurred before or after the month of June. The purpose was to determine whether or not these immigrants had completed five years of residence in Canada at the time of the census.

It should be remembered that the period of immigration and naturalization, "1940-41", used in Tables 46 to 50 includes only five months of 1941, i.e., January 1 to June 1, 1941.

Returning Canadian-born.—In the 1941 Census all Canadian-born persons who had been absent from Canada for a period of a year or more were asked to report a year of immigration. Canadian-born immigrants are thus included with other immigrants in Tables 46 to 49.

Citizenship and Period of Naturalization.—Every person was required to report his nationality or citizenship. The entry in this case was "Canadian" for all persons owing allegiance to Canada. In the case of persons owing allegiance to another country, the name of the country was recorded.

The following persons were classified as of Canadian nationality:

1. Every person born in Canada unless he had subsequently become a citizen of another country.

2. Every person born outside of Canada whose father was a Canadian citizen at the time of that person's birth, unless such a person had become the citizen of another country.

3. Every British subject who had lived in Canada for five years after his entry in Canada as an immigrant.

4. Every woman who married a Canadian citizen.

5. Every person of previous foreign citizenship who obtained naturalization papers in Canada.

Period of Naturalization.—Every person who had acquired Canadian citizenship by naturalization was asked to report the period of his naturalization.

Official Language.—Every person in Canada was asked whether or not he could speak English or French, the two official languages of Canada.

It should be noted that in Tables 51 and 52 under the heading of "Official Language" persons indicated as speaking "English only" or "French only" may also speak other languages and have a mother tongue other than English or French; the expression simply meaning that of the two official languages these persons speak "English only" or "French only".

Mother Tongue.—In addition to the official languages, the "mother tongue" of every person was ascertained. For census purposes, by "mother tongue" is meant the first language learned in childhood if still understood by the person. In censuses prior to 1941, "mother tongue" meant "the language learned in childhood and still spoken by the person". This change in definition should be kept in mind when comparisons are made with previous censuses.

Years of Schooling and School Attendance.—The total number of years of schooling of every person was ascertained in the census. This was to include the number of years a person attended any kind of educational institution such as primary school, technical school, secondary school, college or university. Persons attending night school or receiving private tuition were credited with the number of academic years equivalent to the work done.

Pour les personnes nées dans l'Empire Britannique en dehors du Canada, si immigrées en 1936, il devait être spécifié si c'était avant ou après le mois de juin. Le but était de déterminer si oui ou non ces immigrés avaient complété cinq ans de résidence au Canada à l'époque du recensement.

Il faut se rappeler que la période d'immigration et de naturalisation "1940-1941", employée dans les tableaux 46 à 50, comprend seulement cinq mois de 1941, soit du premier janvier au premier juin 1941.

Né Canadien revenant au pays.—Dans le recensement de 1941, toutes les personnes nées au Canada et qui en avaient été absentes pour une période d'un an ou plus devaient déclarer l'année de leur immigration. Les immigrés nés Canadiens sont ainsi inclus avec les autres immigrés dans les tableaux 46 à 49.

Citoyenneté et période de naturalisation.—Toute personne a été requise de déclarer sa nationalité ou citoyenneté. Dans ce cas, le terme "Canadien" s'appliquait à toute personne devant allégeance au Canada. Dans le cas de personnes devant allégeance à un autre pays, le nom de ce pays devait être entré.

Les personnes suivantes ont été classifiées comme nationaux canadiens:

1. Toute personne née au Canada à moins qu'elle soit subséquemment devenue citoyenne d'un autre pays.

2. Toute personne née en dehors du Canada dont le père était citoyen canadien à l'époque de la naissance, à moins que telle personne soit devenue citoyenne d'un autre pays.

3. Tout sujet britannique ayant vécu au Canada depuis cinq ans après son entrée au Canada comme immigré.

4. Toute femme ayant marié un citoyen canadien.

5. Toute personne antérieurement citoyenne d'un autre pays et qui a obtenu son certificat de naturalisation au Canada.

Période de naturalisation.—Toute personne qui a acquis la citoyenneté canadienne par naturalisation devait déclarer l'époque de sa naturalisation.

Langue officielle.—Toute personne devait déclarer si elle pouvait parler l'anglais et le français, les deux langues officielles du Canada.

A noter que dans les tableaux 51 et 52 l'en-tête "Langue officielle", les personnes indiquées comme parlant "Anglais seulement" ou "Français seulement" peuvent aussi parler d'autres langues et avoir une langue maternelle autre que l'anglais ou le français; l'expression signifie simplement que des deux langues officielles ces personnes parlent "l'anglais seulement" ou le "français seulement".

Langue maternelle.—Outre les langues officielles, la "langue maternelle" de chaque personne a été établie. "Langue maternelle" signifie la langue première apprise dès l'enfance si elle était encore comprise par cette personne. Dans les recensements antérieurs à 1941, "langue maternelle" signifiait "la langue apprise dès l'enfance et encore parlée par la personne". Ce changement dans la définition doit être noté en faisant des comparaisons avec les recensements antérieurs.

Années d'école et fréquentation scolaire.—Le recensement a noté le nombre d'années d'école de chaque personne. Le but était d'établir le nombre d'années pendant lesquelles une personne a fréquenté l'école dans une institution enseignante quelconque comme: école primaire, école technique, école secondaire, collège ou université. Les personnes fréquentant une école du soir ou recevant des cours privés ont été entrées. Les années de cours privés ou d'école du soir ont été comptées comme équivalent d'années académiques.

In addition, the number of persons attending school at any time during the school year 1940-1941 was recorded.

Age of Women at First Marriage.—All women who were or had been married were asked to state their age (in completed years) at the time of their first marriage.

Movement of Population.—In order to obtain statistics of the movement of population in Canada, special questions were asked of every person. All persons were asked if they had ever resided elsewhere than in the province where they were residing at the time of the census. If the answer was in the affirmative they were asked to give the number of years of continuous residence in the present province. Temporary absence up to a year was not counted as residence in another province. In addition, all persons who declared themselves as having resided elsewhere than in the province of residence at the time of the census, were asked to state the country or province of their previous permanent residence. The data thus collected will be found in Tables 61 and 62 of this volume.

N.o.s.—Not otherwise specified.—This term is used throughout this volume where, in the case of religious denominations, the only entry on the schedule was "Protestant" and it was not possible to determine to which of the Protestant denominations the person belonged. It is also used under "origin" to classify a certain number of persons reported as of Austrian origin and where it was not possible to determine whether these persons were of German or other origin.

Index of Names and Tabular Index.—In Appendix C will be found an index of all the names which appear in the volume with the pages at which they appear. In addition, a tabular index is given. This index is intended to show at a glance the tables which are included on each subject and the other subjects by which each is cross-classified. For example, the reader interested in conjugal condition looks along the headings at the top of the page until he finds "Conjugal Condition" and then searches that column for places marked "x". There are four of these, indicating four tables by conjugal condition, of which one shows provinces with rural and urban size groups, another counties, a third metropolitan areas, and a fourth cities of 10,000 and over; that each of these tables is given by sex, that the first table, No. 25, starts on page 258; the second, No. 26, starts on page 260, etc.

For convenience in printing, the headings subsequent to "Birthplace" are set out on page 887. If we are interested in country of allegiance we find the heading "Allegiance". We see that there is only one table, which is a classification by sex for provinces, No. 50, beginning on page 738.

Similar indexes will be presented in the other volumes which contain more cross-classification than does Volume II, and finally, in Volume I the entire set will be gathered together so that the entire published content of the 1941 Census will be ascertainable at a glance.

De plus, le recensement a relevé le nombre de personnes fréquentant ou ayant fréquenté une école quelconque pendant l'année scolaire 1940-1941.

Age des femmes à leur premier mariage.—Toutes les femmes qui étaient ou qui avaient été mariées devaient donner leur âge (en années complètes) à la date de leur premier mariage.

Mouvement de la population.—Afin d'obtenir des statistiques sur le mouvement de la population au Canada, des questions spéciales ont été demandées de toute personne. Toutes ont été priées de dire si elles avaient déjà résidé ailleurs que dans la province où elles habitaient à la date du recensement, et si la réponse était affirmative elles devaient donner le nombre d'années de résidence continue dans la province actuelle. Une absence temporaire jusqu'à un an n'a pas été comptée comme résidence dans une autre province. De plus, toutes les personnes ayant déclaré qu'elles avaient habité ailleurs que dans la province de résidence actuelle ont dû déclarer le pays ou la province de leur résidence permanente antérieure. Les données ainsi colligées paraissent dans les tableaux 61 et 62 du présent volume.

N.a.é.—Non autrement énumérée.—Cette expression est employée dans ce volume partout où, dans le cas des religions, l'unique entrée sur le questionnaire était "Protestante" et où il a été impossible d'établir à quelle secte protestante la personne appartenait. Elle est aussi employée sous "origine" pour le classement d'un certain nombre de personnes inscrites comme étant d'origine autrichienne et où il n'a pas été possible d'établir si ces personnes étaient d'origine allemande ou autre.

Index des noms et index des tableaux.—L'appendice C donne un index de tous les noms qui paraissent dans le volume avec les pages où ils paraissent. De plus, il y a un index des tableaux. L'index a pour but de montrer en un coup d'œil les tableaux qui sont inclus sur chaque sujet et les autres sujets pour lesquels il y a des recoupements. Par exemple, le lecteur intéressé dans l'état conjugal regarde les en-têtes jusqu'à ce qu'il trouve "Etat conjugal" et cherche ensuite la colonne pour les places marquées d'un "x". Il y en a quatre, indiquant quatre tableaux par état conjugal, dont un montre les provinces par groupes ruraux et urbains, un autre les comtés, un troisième les régions métropolitaines, et un quatrième les cités de 10,000 âmes et plus. Chacun de ces tableaux est donné par sexe, le premier tableau, n° 25, commence à la page 258; le deuxième, n° 26, commence à la page 260, etc.

Pour les besoins de l'imprimerie, les en-têtes subséquents à "Lieu de naissance" sont donnés à la page 890. Si le lecteur est intéressé au pays d'allégeance, il trouve l'en-tête "Allégeance". Il n'y a là qu'un seul tableau, qui est une classification par sexe par province, n° 50, commençant à la page 738.

Des index semblables seront présentés dans les autres volumes qui contiennent plus de classifications recoupées que le Volume II et, finalement, dans le Volume I la série entière sera compilée de sorte que tout le contenu publié du recensement de 1941 pourra être parcouru d'un coup d'œil.

(1) Density of population in years previous to 1941 based on present areas.
(2) The population of Ontario, Quebec, Manitoba and Northwest Territories in 1901 is not adjusted according to the provisions of the Boundaries Extension Act, 1912.
(3) Land area revised since 1931 Census.
(4) Northwest River Arm and Rigolet on Hamilton Inlet population deducted from Quebec, as these parts were awarded to Newfoundland by decision of the Judicial Committee of the Privy Council, March 1, 1927.

(1) Densité de la population pendant les années antérieures à 1941, basée sur la superficie présente.
(2) Les populations d'Ontario, de Québec, du Manitoba et des Territoires du Nord-Ouest, en 1901, ne sont pas rajustées d'après la loi de l'extension des frontières de 1912.
(3) Superficie terrestre revisée depuis le recensement de 1931.
(4) La population de Northwest River Arm et Rigolet sur Hamilton Inlet a été déduite de la province de Québec, parce que ces territoires ont été cédés à Terre-Neuve par décision du Comité judiciaire du Conseil Privé le 1er mars 1927.

TABLE 9. Population by electoral districts(1) and census subdivisions, 1941 and 1931
TABLEAU 9. Population par districts électoraux(1) et subdivisions de recensement, 1941 et 1931

NOTE: The Electoral Districts are in bold face type. Where the electoral district is the same as the county, the total population only is given. The subdivisions of such counties are shown in Table 10.

NOTE: Les districts électoraux sont en caractères gras. Là où le district électoral est le comté même, seule la population totale est donnée. Pour les subdivisions de ces comtés, voir tableau 10.

(1) The rural subdivisions, for each county or census division, are entered first in the stub, and are followed by cities, towns and villages which constitute the urban population. For location of incorporated urban centres see Table 16. Differences from Volume II, 1931, not covered by notes, are corrections of erroneous entries—Les subdivisions rurales de chaque comté ou division de recensement sont d'abord indiquées au talon; elles sont suivies des cités, villes et villages qui constituent la population urbaine. Pour la localité des centres urbains érigés en corporation, voir tableau 16. Les différences avec le volume II, 1931 non expliquées dans des renvois sont des corrections de chiffres erronés. (2) Includes personnel of Royal Canadian Navy—Comprend le personnel de la Marine Royale Canadienne. (3) Not incorporated—Non incorporée. (4) Including 347 formerly in Tp. 52.—Y compris 347, autrefois dans le canton 52. (5) See Note 4, page 66—Voir renvoi 4 à la page 66.

NOTE:—For all censuses previous to 1931 the statistics of the population and agriculture of British Columbia were compiled and published only by federal electoral districts and a limited number of ill-defined sub-districts within each district. As a new realignment of federal electoral districts takes place after each decennial census, this method of compiling the census did not afford any comprehensive plan whereby measurements of the movement of population by divisions within the province could be made with any degree of certainty, nor could the economic and social development of the province be ascertained by localities. In order to overcome this handicap the Dominion Bureau of Statistics, and the provincial Departments of the Government of British Columbia agreed upon a plan of dividing the province into "statistical publication areas" which would be, so far as practicable, the divisions according to which both the census of population, agriculture and vital statistics as well as the statistics of Provincial Departments would be compiled and published. It was further agreed that so far as possible these new geographical areas were to be maintained permanently and were to constitute the local entities by which the Bureau and Provincial Departments would prepare their reports.

This arrangement permits the Provincial Departments and the Bureau of Statistics to take a long range view of the industrial, social and economic conditions of the people within fixed areas.

The divisions are given by numbers, the subdivisions by letters with the units which are comprised in each subdivision listed thereunder.

Owing to the limited and indefinite descriptions of local areas, for previous census years it was not easily possible to show the population for the subdivisions set up in 1931 beyond 1921. For description of census divisions by metes and bounds see appendix "B". A statement at the foot of page 146 gives the population of British Columbia according to the 10 new census divisions for 1941 and previous years.

NOTA.—A chaque recensement antérieur à 1931 les statistiques de la population et de l'agriculture de la Colombie Britannique ont été compilées et publiées seulement par districts électoraux fédéraux et un nombre de sous-districts vaguement définis dans chaque district. Comme une nouvelle délimitation des districts électoraux fédéraux est faite après chaque recensement décennal, cette méthode de compilation ne fournit pas un plan par lequel il soit possible de mesurer le mouvement de la population par divisions dans la province avec un certain degré d'exactitude, ou d'établir le développement économique et social de la province par localités. Afin d'obvier à cet inconvénient, le Bureau Fédéral de la Statistique et les départements provinciaux du gouvernement de la Colombie Britannique ont convenu d'un plan de division de la province en régions de publications statistiques qui seraient en autant que possible les divisions d'après lesquelles seraient compilés et publiés le recensement de la population, les statistiques vitales et les statistiques agricoles, de même que les statistiques des différents départements provinciaux. Il fut de plus convenu que ces nouvelles régions géographiques seraient autant que possible maintenues en permanence et constitueraient les entités locales sur lesquelles le Bureau et les départements provinciaux prépareraient leurs rapports.

Cet arrangement permet aux départements provinciaux et au Bureau Fédéral de la Statistique de prendre une vue d'ensemble des conditions industrielles, sociales et économiques de la population dans des régions fixes.

Les divisions, indiquées par des numéros, les subdivisions par des lettres avec les unités comprises dans chaque subdivision.

Vu les descriptions limitées et vagues des régions locales des recensements antérieurs, il n'est pas facilement possible de montrer pour chaque subdivision telle qu'établie en 1931 les chiffres comparatifs antérieurement à 1921. Pour description du bornage des subdivisions de recensement, voir l'appendice "B".

Un état paraissant au bas de la page 146 montre la population de la Colombie Britannique suivant les 10 nouvelles divisions de recensement en 1941 et les années des recensements antérieurs.

(1) Reported "Methodist" in previous censuses.

(2) "Greek Orthodox" and "Greek Catholic" combined under the term "Greek Church" in 1921.

(3) "Mennonites" were included with "Baptists" in 1871 and 1881. Upon objection being made to this in 1891, they were included with "Other" denominations.

(4) Included in "United Church of Canada".

(5) Included with "Other".

(6) These figures represent the number not included in the "United Church of Canada".

(7) Includes "No religion".

(8) Includes 109,475 population in Manitoba, British Columbia, and Northwest Territories who are largely Indian and hence likely "Pagan".

(1) Déclarée "Méthodiste" aux recensements antérieurs.

(2) "Grecque Orthodoxe" et "Catholique Grecque" réunies sous la désignation commune de "Eglise Grecque" en 1921.

(3) Les "Mennonites" étaient compris avec les "Baptistes" en 1871 et 1881. En raison d'une opposition soulevée à ce sujet en 1891, ils ont été placés sous "Autres" religions.

(4) Compris avec "Eglise Unie du Canada".

(5) Compris avec "Autres".

(6) Ces chiffres représentent le nombre de ceux qui ne sont pas compris dans "Eglise Unie du Canada".

(7) Comprend "Sans religion".

(8) Comprend une population de 109,475 au Manitoba, en Colombie Britannique et dans les Territoires du Nord-Ouest et qui se compose presque entièrement d'Indiens et en conséquence qui est probablement "Païenne".

NOTE.—A standard list of principal religious denominations has been shown in Table 37. The list for this table has been shortened for reasons of economy. Those denominations omitted, however, have been tabulated and are available.

(1) Includes "other" and "not stated" religious denominations. (2) Includes "Greek Catholic".

NOTA.—Une liste officielle des principales religions a été donnée dans le tableau 37. Pour des raisons d'économie la liste de ce tableau a été raccourcie. Toutefois les religions qui ont été omises sont aussi classées en tableaux et disponibles.

(1) Comprend "autres" et "non données". (2) Comprend "Catholique Grecque".

EXTRACTS FROM BOOK OF INSTRUCTIONS

Information must be furnished.—The heads of families, households and institutions are required by Section 39 of the Statistics Act to furnish the enumerator with all particulars regarding every person in the family, household or institution as called for in the Schedules. But if the head of a family, household or institution cannot give information concerning boarders, lodgers, or other inmates (including miners, men employed on construction work, etc.), and if such persons are out of reach when the enumerator calls, he shall leave with the head of the family or household one copy of the "Individual Form", for each such person, to be filled up by a date and hour required in a notice given thereon by the enumerator, and the names of all such persons and the information concerning them shall be entered by the enumerator, in Schedule No. 1, under the name of the head of the family or household of which such persons are members. The enumerator will exercise great care to leave as many blank lines under the head of the family in Schedule No. 1 for the transcribing of this information as he leaves copies of "Individual Forms" to be filled up by the absentees of the family or household. The filled forms are to be returned with other schedules to Commissioner for transmission to the Dominion Bureau of Statistics.

EXTRACTS FROM STATISTICS ACT

Every person, who, without lawful excuse, refuses or neglects to fill up to the best of his knowledge and belief any schedule or form which he has been required to fill up, and to return the same when and as required of him under this Act or any regulation, or willfully gives false information or practises any other deception thereunder:

shall, for every such refusal or neglect, or false answer or deception, be guilty of an offence and liable upon summary conviction, to a *penalty not exceeding one hundred dollars and not less than twenty dollars, or to imprisonment for a period not exceeding three months and not less than thirty days, or to both fine and imprisonment.*

The leaving by an enumerator, agent or other person employed in the execution of this Act or any regulation, at any house or part of a house, of any schedule or form purporting to be issued under this Act or any regulation and having thereon a notice requiring that it be filled up and signed within a stated time by the occupant of such house, or part of a house, or in his absence by some other member of the family, shall, as against the occupant, be a sufficient requirement so to fill up and sign the schedule or form, though the occupant is not named in the notice, or personally served therewith.

EXTRAIT DU LIVRE D'INSTRUCTIONS

Obligations de fournir les renseignements.—Les chefs de famille, maîtres de maison et directeurs d'institutions sont tenus par l'article 39 de la Loi de la Statistique de fournir à l'énumérateur tous les détails figurant sur cette formule, concernant chaque personne de la famille, de la maison ou de l'institution. Mais si le chef d'une famille, le maître d'une maison ou le directeur d'une institution ne peut donner les informations concernant les pensionnaires, sous-locataires ou hôtes (par exemple les mineurs, les ouvriers de chantiers de construction, etc.) parce que ces personnes sont absentes lors de la visite du recenseur, celui-ci laissera au chef de famille ou au maître de la maison, un exemplaire de la formule "individuelle" pour chaque personne absente. Cette feuille devra être remplie au jour et à l'heure fixés par l'énumérateur dans l'avis qui y est contenu. L'énumérateur transcrira sur le questionnaire n° 1, sous le nom du chef de la famille ou du maître de la maison, le nom de toutes ces personnes et les renseignements qui les concernent. Pour la transcription de ces renseignements dans le tableau n° 1, l'énumérateur aura le soin de laisser autant de lignes en blanc sous le nom du chef de famille qu'il a laissé de copies de la "formule individuelle" à remplir par les membres absents de la famille ou de la maison. Ces formules une fois remplies seront retournées avec les autres au Commissaire, qui les transmettra au Bureau Fédéral de la Statistique.

EXTRAIT DE LA LOI DE LA STATISTIQUE

Quiconque, sans excuse légitime, refuse ou néglige de fournir un renseignement ou de compléter au meilleur de sa connaissance et croyance tout bulletin ou toute formule qu'il a été requis de compléter, et les remettre à l'époque et de la manière qu'il est tenu de le faire par la présente loi ou par tout règlement, ou sciemment donne de faux renseignements ou exerce dans le domaine de ladite loi une déception quelconque

est, pour chacun de ces refus, négligence, faux renseignements ou déception, coupable d'une contravention et passible sur conviction par voie sommaire, d'*une amende de cent dollars au plus et de vingt dollars au moins, ou d'emprisonnement pour une période de trois mois au plus et de trente jours au moins, ou de l'amende et de l'emprisonnement à la fois.*

Le fait qu'un recenseur, un agent ou une autre personne employée à la mise à exécution de la présente loi ou d'un règlement, a laissé dans une maison ou dans un logement un bulletin ou une formule paraissant avoir été émis sous l'autorité de la présente loi ou d'un règlement, et contenant un avis requérant qu'il soit rempli et signé dans un délai déterminé par l'occupant de cette maison ou de ce logement ou en son absence par quelque autre membre de la famille, constitue, à l'égard de l'occupant une suffisante injonction de remplir et de signer le bulletin ou formule bien que l'occupant ne soit pas dénommé dans l'avis ou qu'il n'ait pas reçu la signification en personne.

BRITISH COLUMBIA

COLOMBIE BRITANNIQUE

The province for census publication purposes is divided into ten divisions shown by figures within heavy outlines; and each division is divided into subdivisions as indicated by letters within thin lines. See description for complete details.

The Divisions are subdivided as follows:

Division 1:—
- a. Columbia River, Upper.
- b. Kootenay River, Upper.
- c. Elk & Flathead Rivers.

Division 2:—
- a. Columbia River, North
- b. Columbia River, South.
- c. Kootenay & Slocan Lakes.

Division 3:—
- a. Okanagan & Shuswap, Upper.
- b. Similkameen River.
- c. Kettle River.

Division 4:—
- a. Lower Fraser Valley.
- b. Howe Sound.

Division 5:—
- a. Vancouver Island South.
- b. Saltspring & Islands.
- c. Vancouver Island, East Coast, South.
- d. Vancouver Island, East Coast, North.
- e. Vancouver Island, West.
- f. Vancouver Island, North.

Pour les fins des publications du recensement la province est répartie en dix divisions montrées par des chiffres et séparées par les lignes grasses et chacune de celles-ci en subdivisions indiquées par des lettres et séparées par les lignes maigres. Voir description pour plus de détails.

Les divisions sont subdivisées comme suit:

Division 6:—
- a. North Thompson.
- b Shuswap.
- c. Nicola.
- d. Chilcotin, South.
- e Lillooet, East.
- f. Bridge-Lillooet.

Division 7:—
- a. Bella Coola, Coast.
- b. Knight Inlet, Coast.
- c. Powell River, Coast.

Division 8:—
- a. Nechako-Fraser-Parsnip.
- b. Fraser-Canoe.
- c. Chilcotin, North.
- d. Cariboo.
- e. Skeena-Bulkley.
- f. Nechako, Upper.

- c. Beaton River.
- d. Kiskatinaw River.

DESCRIPTIONS OF CENSUS DIVISIONS

For the purpose of compiling the census and to provide a means of presenting statistical data for permanent areas smaller than a province, the county municipalities were used in Eastern Canada rather than the electoral districts. In the four western provinces, there being no fixed political divisions corresponding to the counties of Eastern Canada, these provinces have been divided for statistical purposes into census divisions and subdivisions. These census divisions have been so laid out that as population increases, they may be subdivided without destroying the means of comparing the variations in population and agriculture disclosed by censuses.

The reason for using areas with fixed boundaries rather than electoral districts as a basis for the compilation of the census is that the electoral districts being liable to have their areas changed after each redistribution make it impossible to compare one census with another for areas smaller than a province.

The census divisions in each province are constituted as follows:—

PRINCE EDWARD ISLAND.—In the province of Prince Edward Island the divisions are the counties. The rural parts of each county are divided into townships and two royalties while the urban parts are composed of one city and a number of towns. In all provinces the Indian Reserves are treated separately as if they were incorporated into municipalities.

NOVA SCOTIA.—In the province of Nova Scotia, the divisions are the county municipalities except the county of Cape Breton which is subdivided into Cape Breton North and Cape Breton South. In this province, there are no rural municipalities except the county municipalities. The subdivisions used in the compilation and publication of the census have no official boundaries described by metes and bounds and are mostly polling subdivisions or groups of polling subdivisions. The urban parts are composed of cities and towns.

NEW BRUNSWICK.—In the province of New Brunswick, the divisions are the county municipalities. The rural subdivisions are parishes while the urban parts are composed of cities, towns and villages.

QUEBEC.—In the province of Quebec the divisions are the county municipalities generally. In a certain number of counties changes in boundaries have been made in fairly recent years, and these have not been followed in every case (the reason being that it would have been impossible to make comparisons with previous censuses). The following departures from the boundaries of municipal counties have thus been necessitated:

DESCRIPTION DES DIVISIONS DE RECENSEMENT

Pour les fins du recensement et pour fournir une présentation des données statistiques sur les territoires plus petits qu'une province, les municipalités de comté, plutôt que les districts électoraux ont été employées dans le Canada Oriental. Dans les quatre provinces de l'Ouest il n'y a pas de divisions politiques fixes correspondant aux comtés de l'Est du Canada et ces provinces ont été, pour les fins statistiques, réparties en divisions de recensement et leurs subdivisions. Ces divisions de recensement ont été encadrées de telle manière qu'elles puissent, à mesure qu'augmente la population, être subdivisées sans détruire les moyens de comparer les variations de la population et de l'agriculture révélées par les recensements.

La raison pour l'emploi de territoire avec frontières fixes plutôt que des districts électoraux comme base de compilation du recensement est que les districts électoraux sont sujets à des changements de superficie après chaque redistribution électorale, ce qui rend impossible la comparaison d'un recensement à l'autre pour ces territoires plus petits qu'une province.

Les divisions de recensement dans chaque province sont constituées comme suit:

ÎLE DU PRINCE-ÉDOUARD.—Dans la province d'Ile du Prince-Edouard les divisions sont les comtés. Les parties rurales de chaque comté sont divisées en townships et deux royautés tandis que les parties urbaines sont composées d'une cité et de plusieurs villes. Dans toutes les provinces les réserves indiennes sont traitées séparément comme si elles étaient des municipalités incorporées.

NOUVELLE-ÉCOSSE.—Dans la province de Nouvelle-Ecosse les divisions sont les municipalités de comté excepté le comté de Cap-Breton qui est divisé en Cap-Breton Nord et Cap-Breton Sud. Dans cette province il n'y a pas de municipalités rurales autres que les municipalités de comté. Les subdivisions employées dans la compilation et la publication du recensement n'ont pas de frontières officielles décrites par des arpentages et des bornes et elles sont plutôt des subdivisions de bureaux de votation ou des groupes de telles subdivisions. Les parties urbaines sont composées de cités et villes.

NOUVEAU-BRUNSWICK.—Dans la province de Nouveau-Brunswick les subdivisions sont les municipalités de comté. Les subdivisions rurales sont les paroisses et dans les parties urbaines, les cités, villes et villages.

QUÉBEC.—Dans la province de Québec les divisions sont généralement les comtés provinciaux. Dans un certain nombre de comtés il y a eu des changements de frontières faits en ces dernières années mais ceux-ci n'ont pas été suivis dans chaque cas, (la raison étant qu'il aurait été impossible de faire des comparaisons avec les recensements antérieurs). Il a été nécessaire d'ignorer les limites de municipalités de comté dans les cas suivants:

Localité	Population	Comté	
		Recensement	Municipal du Québec
Ascot Corner Mun. (pt.)	296	Compton	Sherbrooke.
	223	Richmond	"
Compton	1,808	Compton	"
Compton Village	425	"	"
La Macaza (pt.)	78	Montcalm	Labelle.
Marston	471	Frontenac	Compton.
Mont-Tremblant (pt.)	18	Labelle	Terrebonne.
Sacré-Cœur-de-Marie Pt. S. (pt.)	121	Beauce	Mégantic.
St-Agricole	399	Montcalm	Terrebonne.
Ste-Aurélie	984	Beauce	Dorchester.
St-Denis-de-Brompton (pt.)	186	Sherbrooke	Richmond.
St-François-de-la-Rivière-du-Sud (pt.)	.....	Bellechasse	Montmagny.
St-Herménégilde (pt.)	552	Compton	Stanstead.
St-Herménégilde Village (pt.)	106	"	"
St-Joseph-de-la-Beauce (pt.)	59	Dorchester	Beauce.
St-Méthode-d'Adstock (pt.)	23	Beauce	Frontenac.
St-Michel-du-Squatec (pt.)	94	Rimouski	Témiscouata.
St-Zacharie	2,261	Beauce	Dorchester.
Waterville Village	844	Compton	Sherbrooke.
Whitton	1,359	Frontenac	Compton.

In addition, a certain number of counties have been created recently and did not appear in censuses prior to 1941. Thus, the counties of Gatineau and Hull were compiled prior to 1941 as the county of Hull; Charlevoix East and West as Charlevoix; Gaspé East, Gaspé West and Madeleine Islands as Gaspé; Lac St. Jean East and West as Lac St. Jean; Matapédia and Matane as Matane; Montmorency No. 1 and No. 2 as Montmorency; and Temiscouata and Rivière-du-Loup as Temiscouata. In each of these cases, for purposes of comparison with previous censuses, the original county was published and the new counties were published as sub-totals immediately following them.

The rural parts of each county are divided into municipalities of parishes, municipalities of townships, municipalities without designation, and into areas which are not incorporated into municipalities and which are grouped together as unorganized areas. The urban parts are composed of cities, towns and villages. See Table 10, p. 66, for further explanations.

ONTARIO.—In the province of Ontario the divisions are the county municipalities. The rural parts are divided into townships and a certain number of unorganized areas. The urban parts are made up of cities, towns and villages.

MANITOBA, SASKATCHEWAN, ALBERTA and BRITISH COLUMBIA.—As already stated, there being no fixed divisions corresponding to the counties of Eastern Canada, these provinces have been divided into census divisions. The following descriptions show the composition of each division:—

MANITOBA

Division No. 1 comprises the municipalities of Birch River (1), Hanover (2), La Broquerie (3), Piney (4), Ste-Anne (5), Sprague (6), Stuartburn (7), Taché (8); Unorganized parts (9); Indian Reserves.

Division No. 2 comprises the municipalities of De Salaberry (1), Franklin (2), Montcalm (3), Morris (4), Rhineland (5), Roland (6), Stanley (7), Thompson (8); Indian Reserves; Towns—Emerson, Morden, Morris; Villages—Gretna, Plum Coulee, Winkler.

Division No. 3 comprises the municipalities of Argyle (1), Lorne (2), Louise (3), Pembina (4), Riverside (5), Roblin (6), Strathcona (7), Turtle Mountain (8); Indian Reserves; Towns—Killarney; Villages—Manitou, Pilot Mound.

De plus, un certain nombre de comtés ont été créés récemment et ne paraissent pas dans les recensements antérieurs à 1941. Ainsi, les comtés de Gatineau et Hull étaient antérieurement à 1941 compilés ensemble comme comté de Hull; Charlevoix-Est et Ouest comme Charlevoix; Gaspé-Est, Gaspé-Ouest et les Iles-de-la-Madeleine, comme Gaspé; le Lac Saint-Jean-Est et Ouest, comme Lac Saint-Jean; Matapédia et Matane, comme Matane; Montmorency 1 et Montmorency 2, comme Montmorency; et Témiscouata et Rivière-du-Loup, comme Témiscouata. Dans chacun de ces cas, pour fins de comparaison avec les recensements antérieurs, le comté original paraît d'abord et les nouveaux comtés paraissent comme des sous-totaux suivant immédiatement.

Les parties rurales de chaque comté ont été divisées en municipalités de paroisse, municipalités de township, municipalités sans désignation et en districts qui ne sont pas incorporés en municipalités et qui sont groupés ensemble comme régions non organisées. Les parties urbaines sont composées de cités, villes et villages. Voir le tableau 10, page 66 pour plus amples explications.

ONTARIO.—Dans la province d'Ontario les divisions sont les municipalités de comté. Les parties rurales sont divisées en townships et en un certain nombre de régions non organisées. Les parties urbaines comprennent les cités, villes et villages.
